Opportunities

New Learning Site Committee seeking member MDs at SHC and PLC

Learning Site Committee: This is a collaborative initiative that was established to address issues specific to learning sites, including the 5 acute care hospitals, community settings and distributed learning sites. The scope of this committee will include review of resource and infrastructure needs, and general concerns regarding the work and learning environment for residents and fellows.

Committee membership includes two Alberta Health Services leads, Associate Dean, DLRI, Family Medicine representatives, residents and fellows. I am hoping to recruit a faculty member from each of the acute care hospitals but have been successful in doing so only for the Foothills and Rockyview Hospital sites.

I appreciate that faculty members are extremely busy and already managing multiple commitments, including the added work of this pandemic. Having said that, I believe this is an important committee with an opportunity to work collaboratively to address the many learning site issues that continue to arise and are reflected in our resident and fellowship trainee surveys.

I would appreciate your help in bringing this opportunity to the attention of your department members. I am looking for representatives for the PLC, ACH and SHC hospitals. Estimated meeting frequency is likely to be 4x/year. We are scheduled to have a first meeting in September.

Many thanks for your support of postgraduate medical education.

If interested, contact Eddy Lang.

Grant Basics: How to submit your grant application

Monday, August 30, 2021

Presentation: 1:00pm – 1:30pm

Q&A: 1:30pm - 2:00pm

[Register now](#)

Planning to submit a grant this fall grant season? This short webinar will provide an overview of the University of Calgary's internal processes for submitting an external grant application, as well as general processes for submitting your final application to the funding agency. We will provide tips to avoid the most common Research Management system (RMS) issues when submitting for internal approvals. The OADR Grant Development team will stay online following the presentation to answer questions about your grant submission.

Presented by: OADR Grant Development Office

TREKK Scholars and Fellows Program

As you may know, the [TREKK Scholars & Fellows](#) program is now accepting applications.

We would appreciate your help to share this application to any candidates you think would be interested.

Fellows Program:

- Program designed to support trainees and early career professionals.
- Opportunity to engage in TREKK-led efforts to better understand knowledge mobilization strategies for improving pediatric emergency care.
- Fellows will be assigned one area of focus and one or more TREKK mentors who will provide ongoing support and opportunities for participation.

Scholarship Program:

- Program designed to support trainees and early career, clinicians and health professionals.
- TREKK Scholars will work alongside TREKK leaders to develop and implement a unique project focused on a key area of interest.
- Scholars' projects will encompass two or more areas of interest including knowledge translation, knowledge dissemination, communications, continuing professional development, and/or research.

***Application deadline is September 7th, 2021**
