Physician Support Fund (PSF) Survey!

We need your input! There have been big funding changes from AHS / UofC and everyone's income was down this year. We want to appropriately disburse your money and support initiatives that you want.

This survey will honestly take less than 3 minutes and also provides a report on where your money has gone and all the awesome things we have been able to do as a group!

INFO Debriefing study expands to all ED's

Have you been part of an INFO debriefing? We are looking for participants to take part in a study titled "Attitudes of Calgary Emergency Department Staff to the INFO Sessions Debriefing Technique."

This study started at the FMC but is now expanding to all the Calgary ED's and we would really like to know what you think about INFO debriefing at your site.

Participants will be asked to commit 30 minutes for a one-on-one interview via Zoom audio.

Participants will receive a \$10 coffee card (and an INFO pen) as a thank you for their participation.

Extra-curriculars/clinical & non-clinical interests survey

Thank you to those who attempted the survey and my apologies to those who encountered a glitch that prevented you from submitting the survey. The issue has been resolved and I would greatly appreciate it if those of you who had issues would be willing to return to the survey to complete it. Thank you again and my sincere apologies for the confusion and frustration.

Below you will find a link to a survey that is looking to collect information about areas of clinical and non-clinical interests as well as involvement in hubs or extra curricular activities. It takes less than 10 minutes to complete. The ultimate goal of this survey is to create a password-protected staff directory on our Calgary EM website where both residents and other staff can find colleagues with similar interests and areas of expertise. By participating in this survey you will help our residents with finding mentors or identifying staff who have careers in their areas of interest. It would also be used to help colleagues find collaborators or mentors and to help develop wellness/social initiatives. This survey is NOT a means for leadership to monitor the extra curricular activities of the staff and does not affect promotions/hiring/etc.

[Click here for survey.](#)

Thank you in advance for your time and for contributing to the enhanced sense of community in our department. Please feel free to contact me via email if you have any questions or concerns.
Dr. Carly Hagel MD FRCPC

YYCEM JUNE Wellness Challenge!

It's June and that means we are halfway through 2021! This month's challenge is to look for ways we can show appreciation of each other at work. In doing this we will receive the gift of seeing the good things in others and will be giving people the gift of acknowledging their unique contributions. Check out the website and the June video to learn more.
