

The Calgary Hospitalist program provides excellent patient-centered care through the continuum of hospital care. Addiction, mental health and social issues frequently complicate medical issues thus advocacy at the patient and system level will be a key part of this role.

We are looking for clinicians who have a strong interest in developing a permanent acute care hospital practice and working collaboratively with all members of the inter-disciplinary team. We are a cohesive and diverse group of family physicians and are enthusiastic to welcome new members.

There are opportunities available ranging from 0.1 - 1 FTE and remunerated under an alternate relationship plan. Successful candidates will be expected to provide daily inpatient care as the most responsible physician and in-house coverage with a variety of hours including daytime, evening, overnight, weekend and holiday coverage.

Connect Care training is mandatory and will be provided. Current ACLS and BLS certification as well as participation in eSIM are requirements.

Must read, write and speak English.

All qualified candidates are encouraged to apply; however, Canadians and Permanent Residents will be given priority.

Currently, these positions do not qualify for sponsorship for immigration.

Please email jennifer.otsuki@ahs.ca if interested.
