### Part 3 – Research Training Environment and Trainee’s Role in Research Project

Describe the resources available to support the candidate’s research and the broad training opportunities the environment provides. Outline the benefit for the candidate in this environment, highlighting the facilities and other personnel the trainee will have the opportunity to interact with, and professional development opportunities. Detail the role of the trainee in the proposed research project and how it links to the supervisors’ research program and/or research group. If there is a co-supervisor, please describe their role. (800 words.)
