

COVID-19 Procedure Checklist

Oct. 20, 2020

1. Family and participant should wait in Room B1-541 waiting room until the scanner is available and/or it is time to change clothes. Door code is on note near the console computer.(Code: 41693)
2. Minimize the number of people in the control room to maintain 2m distance. A parent/guardian who does not stay with the participant in the MR room should be asked to remain in the waiting room.
3. The participant is not required to wear a mask in the MR room. If they prefer to be masked, then they should use the Vanch brand with non-metallic nose bridge (see labelled box on control room desk.)
4. Ear cover slips should be used on the MR headset.
5. Operators must remember to clean the MR console, head coil, and door handles after the scan as well as regular cleaning.
6. The waiting room desk surface, chair rests, and door handles should be cleaned after each scan session by the Researcher(s).
