Annual Geoff Cragg Ski Day

Dr. Geoff Cragg was enrolled in our residency training program starting in 1988. Geoff was a dedicated surgeon who was looking forward to starting his own practice upon graduation. On September 16, 1992, an intruder broke into the Cragg residence, and while protecting his family, Geoff was fatally stabbed. Dr. Cragg will be deeply missed by all that had the

opportunity of knowing this fine individual. Our Calgary Orthopaedic Section and Residency Program has a logo (as noted to the right), which was designed by Dr. Cragg, and it is with pride, we continue to use this logo and it reminds us of what we senselessly lost in September 1992. In honour of this fine gentleman, each year we host the Annual Geoff Cragg Ski Day which is attended by Calgary Orthopaedic Residents, Faculty and Industry Representatives.

Below are photos from the 2022 Ski Day which took place on February 24th at Lake Louise Ski Resort

Annual Spencer McLean Orthopaedic Residents vs Orthopaedic Faculty Hockey Game

Each winter the Resident Social Club organizes an annual Orthopaedic Residents versus Orthopaedic Faculty Hockey Game. This fun event is named in honour of one of our former residents, Dr. Spencer McLean who was the epitome of a gentleman and was the best example of how to work in a team environment and how to be a great friend and co-worker.

The Teams from the 2022 Hockey Game

And the winners were The Residents

Calgary Orthopaedic Group Cycling Club (COGcc)

The Calgary Orthopaedic Group cycling club (COGcc) was founded in 2020 by a group of orthopaedic staff and residents with a passion for all things cycling-related. Interest quickly spread across the Calgary orthopaedic community and morphed into a shared interest amongst several members of the Section of Orthopaedic Surgery. As such, the COGcc was born and consists and many of the orthopaedic surgery staff, trainees and other members of the ancillary orthopaedic health care teams. The club organizes several short and long distance road, gravel and mountain bike rides during the spring, summer and fall. The winter brings on some fat tire bike rides and weekly virtual Zwift rides.
