

Graduate Science Education Scholarship and Award Internal Review Service: Reviewer Registration

The *Scholarship and Award Internal Review Service* coordinates the internal review of in-progress scholarship applications (e.g., Canada Graduate Scholarship – Doctoral and Master’s) in order offer Cumming School of Medicine (CSM) graduate students the opportunity to strengthen the competitiveness of their applications prior to ultimate submission to sponsor agencies.

As part of this service, the GSE continually seeks post-doctoral fellows to serve as reviewers of graduate student scholarship and award applications. Participating as a reviewer offers an invaluable service to CSM graduate students and offers reviewers the opportunity to cultivate key supervisory skills as well as earn and document formal academic service.

To register as a reviewer, please complete the below information and return to awardsgse@ucalgary.ca.
