
Calgary Cancer Project

Staff, Physician & Volunteer Update
November 2018

Communicating What You Want

In the previous newsletter, we included a survey to find out how you would like to be updated about the Calgary Cancer Project (CCP) over the coming years. Over 300 people responded and everyone is excited to learn a great deal about the project! We will be incorporating your feedback into our 2019 communications plan and how we share project updates.

Top Question

Over the past few months, the CCP team along with Tom Baker Cancer Centre leadership have been visiting TBCC staff to talk about the project and answer any questions.

So far, the most popular question is - when will the new Calgary Cancer Centre open?
Here is a tentative timeline:

Major Construction Milestone

The first clinical area is now under construction with the setting of the B2 Level Radiation Therapy slab.

A Foundation of Hope

To mark the milestone of the last major foundation concrete pour at the beginning of October, patient & family advisors and staff placed stones with names and messages of hope.
