Frequently Asked Questions
2018 Medicine Island Wine Survivor

Q: How many people will be eliminated each day?
A: Draws will take place every work day between Nov. 5 and November 23. The number of people eliminated each day will be calculated once the final number of participants has been determined. Whatever the number is, it will be the same every day except for the final elimination day.

Q: How will I know if I’ve been eliminated?
A: Each team will assign a captain. Team captains will be notified daily of the eliminated names, and are responsible for passing that information along to their team members.

Q: How much wine will my team win?
A: The amount of wine your team wins depends on how many people are playing – the more players, the more wine there will be to win. In 2016, 38 teams (228 people) participated. A whopping 97 bottles went to the first place team, 76 bottles to the second place team, 43 bottles to the third place team, and six bottles to the team with the best name.

First place – 40 per cent
Second place – 30 per cent
Third place – 20 per cent
Fourth place – 10 per cent

Q: Is there a way to increase my chances of winning?
A: Yes! You can either purchase immunity at $5 each (maximum three per player, non-transferable) or join more than more team. For every team you join, you must pay the $40 registration fee. There’s no limit on number of entries.

Q: I have wine at home. Can I use that as my registration fee?
A: Yes. If you have a bottle of wine at home that’s valued at $20, or prefer to do your own shopping, you may provide this along with $20 (cash or cheque) as your registration fee.

Q: Is there any other way to win?
A: Yes there is, and it all depends on your team name. Bottles of wine will be set aside for the team that has the best name. Members of the United Way Steering Committee will choose the winner.
