MDSC 301 Graduate Assistant - Teaching (GAT) Position – Winter 2027
Bachelor of Health Sciences Program, Cumming School of Medicine

A half-time GAT position is available for **MDSC 301– Introduction to Bioinformatics**. This undergraduate course provides an introduction to next generation sequencing genomic and transcriptomic analyses through project-based learning.

The successful applicant will be mature, responsible, reliable, and able to meet deadlines. The candidate is preferably in their second year or higher of their masters or PhD program, preferably with a specialization in bioinformatics, computational biology, or genetics. Students in other specializations will be considered if they can demonstrate a strong quantitative biology background.

This position requires a graduate student with excellent writing skills (a writing sample may be requested) and the ability to provide constructive feedback on student essays. Outstanding organizational, verbal, and written skills are essential for success in this position. Experience with delivering online courses and/or the associated technologies is preferred.

This role supports Dr. Constance Li in the following duties:

- facilitating in-class sessions, including checking in on and assisting students
- leading tutorial workshops
- grading course papers in a timely manner
- providing input on online course delivery options

To apply, please send a completed **BHSc GA(T) Application,** a statement of interest, and CV to Dr. Constance Li (constance.li@ucalgary.ca).

The deadline to apply is November 20, 2026.
