Four full-time GAT positions (12 hours/week) are available for **MDSC 351 – Honours Cell and Molecular Biology**, which will be delivered in person in Winter 2023. The class is comprised of 2nd and 3rd year students in the Bachelor of Health Sciences program, and MDSC 351 is a required course for Biomed and Bioinformatics majors. BHSc students are generally smart, self-motivated students, and they want to do well and are willing to work to achieve good marks.

The candidate is preferably in their second year or higher of their masters or PhD program. The successful applicant will be mature, responsible, reliable, and able to meet deadlines. In addition, this position requires a graduate student with excellent writing skills and the ability to provide constructive feedback on student essays. Outstanding organizational, verbal, and written skills are essential for success in this position.

This role supports Dr. Mayi Arcellana-Panlilio in the following duties:

- Attend every class (Tuesdays from 3:30 - 6:20 pm and Thursdays from 3:30 - 5:30 pm) and help track student participation in class discussions and activities
- Mark essays, short assignments, quizzes, and tutorial worksheets
- Prepare and deliver a 75 minute lecture to the class

To apply, please send the following documents and information to Dr. Mayi Arcellana-Panlilio at myarcell@ucalgary.ca:

- a completed **BHSc GA(T) Application**
- CV
- science courses taken in undergrad and grad school
- a writing sample (preferably a paper you submitted for a course rather than a co-authored manuscript)
- the name of your PI

The deadline to apply is 31 October 2022. Interviews will begin in November.
