

**Advanced Topics in Immunology
CMMB/MDSC 567**

Instructors:

Course Coordinator
Shan Liao (liaos@ucalgary.ca)

Course Instructors
Kamala Patel (kpatel@ucalgary.ca)
Robert Newton (rnewton@ucalgary.ca)
Pierre-Yves von der Weid (vonderwe@ucalgary.ca)
Clinical Immunology (To be determined)

Office Hours/Policy on Answering Student Emails

There are no specified office hours. Queries will be addressed as they arise. Please note that all course communications must occur through your @ucalgary.ca email, and we will aim respond to emails within 48 hours.

Time and Location:

Winter Semester
Tuesdays and Thursdays
3:30-4:45pm
For location see D2L

Prerequisite/Co-Requisite:

Introductory Immunology (CMMB 527 or MDSC 321)

Course Description:

This is an advanced course catering to students with an interest in immunology, and those with research interests. The material presented builds on the foundation of basic immunological principles that students will have obtained in CMMB 527/MDSC 321 or an equivalent course. The course is modular and can change/rotate annually. This year instruction is provided by five experts in immunology under the main topics of:

- (1) Innate immunity and immune cell trafficking;
- (2) Structure and function of the lymphatic system;
- (3) Inflammation and therapeutics in the airways;
- (4) Clinical Immunology

Overarching Theme

To blend didactic and interactive teaching approaches to delivery up-to-date knowledge (i.e. from the primary research literature) on advanced in immunology.

Global Objectives

This course is designed for motivated students who can work well independently and in groups, with the central goal of illuminating current immunological concepts as they relate to homeostasis, infection and disease. Students are introduced to one or more teaching styles (lectures, small group discussions and problem-based learning) and, similarly, a variety of evaluation tools are employed (in class tests, in class participation, form presentations, critique of the scientific literature, composition of a critical essay). The student will gain a much fuller understanding of the complexity of immunology – signals, cell-cell communication, coordinated responses, immunopathological mechanism, interaction of the immune system with other systems in the body – and how this advances our knowledge of the organism and health and disease.

Course Learning Outcomes

By the end of this course, students will be able to:

- Better critique the scientific literature
- Apply problem-based learning to a biomedical question and as a learning tool
- Understand the complexity of immune cells recruitment and trafficking
- Appreciate the active role that lymphatic vessels play in the control of homeostasis and disease
- Understand steroid intracellular signaling and gene regulation as they relate to airway inflammation
- Appreciate the complexity of host-parasite interactions and the impact on host immunity
- Understand the application of immunology in clinical settings

Transferable Skill Development:

Transferable skills are core skills for your success in building your future career.

The work that you will do in this course will help you build the following transferable skills:

- **Collaboration:** Work respectfully with others from different backgrounds, cultures, and countries.
- **Verbal Communication:** Learn and share information by presenting, listening, and interacting with others.
- **Creativity and Innovation:** Find different and better ways to do things, being curious, thinking imaginatively.
- **Critical Thinking:** Actively and skillfully conceptualize, apply, analyze, synthesize, and/or evaluate information (data, facts, observable phenomena, and research findings) to make a reasoned judgement or draw a reasonable conclusion.
- **Information Literacy:** Find, understand, and use information presented through words, symbols, and images
- **Problem solving:** Identify an issue, find and implement a solution, and assess whether the situation has improved.
- **Written Communication:** Share ideas and information by using words, images, and symbols.

Learning Resources

No textbook required.

Recommended Textbooks/Readings

None

A Note regarding readings

Individual lecturers will provide essential and/or most updated reading materials in advance of class. Students will be notified that said material will be uploaded to D2L within a reasonable time to read the material prior to class.

Learning Technology Requirements

Brightspace (by D2L) is located on the University of Calgary server and will be used extensively for communication with students. **It is the student's responsibility to ensure that they receive all posted communications and documents and that they receive emails sent by instructors or fellow students through D2L.**

Only your @ucalgary.ca email address may be linked to D2L. Please ensure that you are regularly checking your @ucalgary.ca account.

A laptop, desktop, tablet or mobile device is required for D2L access. If you need help accessing or using D2L, please visit the Desire2Learn resource page for students:
<http://elearn.ucalgary.ca/d2l-student/>.

Evaluation

The University policy on grading and related matters is described in section F of the 2023-2024 Calendar.

In determining the overall grade in the course, the following weights will be used:

Dr. Patel: 25% (written critiques (15%), class participation (10%))

Drs. Liao & Von der Weid:

25% (in class test (12%), written critique (8%), in class participation (5%))

Dr. Newton: 25% (Essay (20%), in class participation (5%))

Clinical Immunology: 25% (Essay (20%), in class participation (5%))

Each instructor will provide individual instruction on the assessment criteria for their module at the beginning of the first class of their module.

There will not be a final examination.

Students who do not complete all major components of the course will be considered as not having completed the course; this may be reflected on the students' official transcript as 'Incomplete'. Major components of the course include in class participation and written assignments. In the absence of medical or other documented reasons, the instructor reserves Winter 2022 the right to award an 'Incomplete'."

A Note regarding Writing Assignments:

Writing skills are important to academic study in all disciplines. In keeping with the University of Calgary's emphasis on the importance of academic writing in student assignments (section E.2 of 2023-24 Calendar), writing is emphasized, and the grading thereof in determining a student's

mark in this course. The Bachelor of Health Sciences values excellence in writing. Competence in writing entails skills in crafting logical, clear, coherent, non-redundant sentences, paragraphs and broader arguments, as well as skills with the mechanics of writing (grammar, spelling, punctuation). Sources used in research papers must be properly documented. The University of Calgary offers instructional services through the Students' Success Centre's Writing Support Services (<http://www.ucalgary.ca/writingsupport/>) for students seeking feedback on assignments or seeking to improve their general writing skills. Students are **strongly encouraged** to take advantage of these programs.

Grading Scheme:

Letter Grade	Description	Percentage
A+	Outstanding performance	96-100
A	Excellent performance	90-95.99
A-	Approaching excellent performance	85-89
B+	Exceeding good performance	80-84
B	Good performance	75-79
B-	Approaching good performance	70-74
C+	Exceeding satisfactory performance	65-69
C	Satisfactory performance	60-64
C-	Approaching satisfactory performance	57-59
D+	Marginal pass	54-56
D	Minimal pass	50-53
F	Does not meet course requirements	0-49

Missed Components of Term Work:

At each instructor's discretion, late assignments will not be accepted and will automatically receive a mark of zero, or students will lose 5% per day late past the deadline for all assignments. In this case, assignments will NOT be accepted more than 72 hours after the posted deadline and students failing to submit any assignment within this time frame will receive a mark of zero. Only very exceptional circumstances will be considered for assignments submitted after the 72h deadline.

It is the agreement of all Faculty involved in MDSC 567 that extensions will NOT normally be granted on any assignment. The only exceptions to this, are those in keeping with the Page 5 of 9 Winter 2022 University Calendar (illness, religious conviction, or severe domestic affliction) that are received in writing and with supporting documentation. Please be advised that students should notify the instructor before the assignment deadline to discuss. Please note that while absences are permitted for religious reasons, students are responsible for providing advance notice and adhering to other guidelines on this matter, as outlined in the University Calendar (<https://www.ucalgary.ca/pubs/calendar/current/e-4.html>).

Course Evaluations and Student Feedback

Student feedback will be sought at the end of the course through the UCalgary Course Experience Survey and a qualitative student evaluation. Students are welcome to discuss the process and content of the course at any time with the instructor. Students may also address any

concerns they may have with Dr. Fabiola Aparicio-Ting, Associate Dean (Undergraduate Health and Science Education) in the Cumming School of Medicine (feapartic@ucalgary.ca).

Attendance

Full attendance is expected and any absence should be communicated to Dr. McKay the course coordinator and the individual lecturer of the missed session.

Conduct During Lectures

The classroom should be respected as a safe place to share ideas without judgement - a community in which we can all learn from one another. Students are expected to frame their comments and questions to lecturers in respectful and appropriate language, always maintaining sensitivity towards the topic. Students, employees, and academic staff are also expected to demonstrate behaviour in class that promotes and maintains a positive and productive learning environment.

As members of the University community, students, employees and academic staff are expected to demonstrate conduct that is consistent with the University of Calgary Calendar, the Code of Conduct and Non-Academic Misconduct policy and procedures, which can be found at <https://www.ucalgary.ca/student-services/student-conduct/policy> .

Students are expected to take notes during class and should not rely solely on material supplied by the instructors. Instructors may or may not post lectures notes to D2L, at their individual discretion. Instructors may cover concepts or examples in class that may not be posted to D2L but may be assessed.

Use of Internet and Electronic Communication Devices in Class

The Bachelor of Health Sciences program aims to create a supportive and respectful learning environment for all students. The use of laptop and mobile devices is acceptable when used in a manner appropriate to the course and classroom activities. However, research studies have found that inappropriate/off-topic use of electronic devices in the classroom negatively affects the learning of others during class time.

Students are responsible for being aware of the University's Internet and email use policy, which can be found at <https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Acceptable-Use-of-Electronic-Resources-and-Information-Policy.pdf>.

Use of Artificial Intelligence Tools

The individual instructors will specify the potential use of AI in assignments.

UNIVERSITY OF CALGARY POLICIES AND SUPPORTS

Copyright

All students are required to read the University of Calgary policy on Acceptable Use of Material Protected by Copyright (<https://www.ucalgary.ca/legal-services/university-policies-procedures/acceptable-use-material-protected-copyright-policy>) and requirements of the Copyright Act (<https://laws-lois.justice.gc.ca/eng/acts/C-42/index.html>) to ensure they are aware of the consequences of unauthorized sharing of course materials (including instructor notes,

electronic versions of textbooks, etc.). Students who use material protected by copyright in violation of this policy may be disciplined under the Non-Academic Misconduct Policy <https://www.ucalgary.ca/pubs/calendar/current/k.html>.

Instructor Intellectual Property

Course materials created by instructors (including course outlines, presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the instructor. These materials may **NOT** be reproduced, redistributed or copied without the explicit consent of the professor. **The posting of course materials to third party websites such as note-sharing sites without permission is prohibited.** Sharing of extracts of these course materials with other students enrolled in the course *at the same time* may be allowed under fair dealing.

Academic Accommodations

It is the student's responsibility to request academic accommodations according to the University policies and procedures listed below. The Student Accommodations policy is available at <https://ucalgary.ca/student-services/access/prospective-students/academic-accommodations>. Students needing an accommodation based on disability or medical concerns should contact Student Accessibility Services (SAS) in accordance with the Procedure for Accommodations for Students with Disabilities (<https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-for-Students-with-Disabilities-Procedure.pdf>). SAS will process the request and issue letters of accommodations to instructors. For additional information on support services and accommodations for students with disabilities, visit www.ucalgary.ca/access/.

Students who require an accommodation in relation to their coursework based on a protected ground other than disability should communicate this need in writing to Dr. Fabiola Aparicio-Ting (feaparc@ucalgary.ca), Associate Dean, Undergraduate Health and Science Education.

Academic Misconduct

The University of Calgary is committed to the highest standards of academic integrity and honesty. The University of Calgary has created rules to govern all its members regarding the creation of knowledge and the demonstration of knowledge having been learned.

Academic Misconduct refers to student behaviour that compromises proper assessment of a student's academic activities and includes (but is not limited to): cheating, fabrication, falsification, plagiarism, unauthorized assistance, failure to comply with an instructor's expectations regarding conduct required of students completing academic assessments in their courses, and failure to comply with exam regulations applied by the Registrar. **It also includes using of third party websites/services to access past/current course material, essay/assignment writing services, or real-time assistance in completing assessments, seeking answers to assessment questions and similar, whether paid, bartered or unpaid.**

For information of the Student Academic Misconduct Policy and Procedures, please visit; <https://www.ucalgary.ca/legal-services/university-policies-procedures/student-academic-misconduct-policy>.

skills-building available through the UCalgary Wellness Centre (<https://www.ucalgary.ca/wellness-services/services/mental-health-services>) and the Campus Mental Health Strategy (<http://www.ucalgary.ca/mentalhealth/>).

Student Ombuds' Office

The Student Ombuds' Office supports and provides a safe, neutral space for students. For more information, please visit www.ucalgary.ca/student-services/ombuds/ or email ombuds@ucalgary.ca

BHSc Student Faculty Liaison Committee (SFLC)

The BHSc SFLC, with elected representatives from all majors, serves to raise issues of interest to BHSc students to the program administration, including items pertaining to curriculum, scheduling and events. A list of current representatives can be found on the BHSc website.

Student Union (SU) Information

The SU Vice-President Academic can be reached at (403) 220-3911 or suvpaca@ucalgary.ca; the SU representatives for the Cumming School of Medicine can be reached at medrep1@su.ucalgary.ca or medrep2@su.ucalgary.ca.

Student Success Centre

The Student Success Centre provides services and programs to ensure students can make the most of their time at the University of Calgary. Our advisors, learning support staff, and writing support staff assist students in enhancing their skills and achieving their academic goals. They provide tailored learning support and advising programs, as well as one-on-one services, free of charge to all undergraduate and graduate students. For more information visit: <https://www.ucalgary.ca/student-services/student-success>

Emergency Evacuation/Assembly Points

As part of the University of Calgary Emergency Evacuation plan, students, faculty, and staff should locate the closest Assembly Point in case of Fire Alarm. Safety signage is posted throughout the campus showing the locations and the possible route to these locations. All students, faculty, and staff are expected to promptly make their way to the nearest Assembly Point if the Fire Alarm is activated. No one is to return into campus facilities until an all clear is given to the warden in charge of the Assembly Area. For more information, see <https://www.ucalgary.ca/emergencyplan/building-evacuation/assembly-points>

Safewalk

Campus security will escort individuals, day or night, anywhere on campus (including McMahon Stadium, Health Sciences Centre, Student Family Housing, the Alberta Children's Hospital and the University LRT station). Call 403-220-5333 or visit <http://www.ucalgary.ca/security/safewalk>. Use any campus phone, emergency phone or the yellow phone located at most parking lot pay booths. Please ensure your personal safety by taking advantage of this service.

Class Schedule

As detailed in the accompanying excel sheet.

WINTER 2024

MDSC (CMMB) 567: Advanced Topics In Immunology [Tuesday and Thursday 15:30-16:45] [Room: See D2L]

Date	Session	Presentation	Lecturer	Evaluation (due dates to be provided)
9th Jan	Tues	1	Course introduction and overview	S Liao
<i>INNATE IMMUNITY and CELL RECRUITMENT</i>				
11th Jan	Thurs	2	Halmark features of inflammation	K. Patel
16th Jan	Tues	3	Recruitment of leukocytes	K. Patel
18th Jan	Thurs	4	Cytokines and chemokines	K. Patel
23th Jan	Tues	5	Lipid mediators of inflammation	K. Patel
25th Jan	Thurs	6	Systemic inflammation and COVID-19	K. Patel
30st Jan	Tues	7	Discussion and debate (topic to be determined)	k
<i>LYMPH NODE STRCUTURE, MUCOSA ASSOCIATED IMMUNE CELLS AND LYMPHATICS</i>				
1nd Feb	Thurs	8	Introduction to the lymphatic system	S. Liao/P-Y von der Weid
6th Feb	Tues	9	Lymphatic vessel and lymph node development	S. Liao/P-Y von der Weid
8th Feb	Thurs	10	Lymphatic and immune regulation	S. Liao/P-Y von der Weid
13th Feb	Tues	11	Paper discussion/debate	S. Liao/P-Y von der Weid
15th Feb	Thurs	12	Paper discussion/debate	S. Liao/P-Y von der Weid
20nd Feb	Tues	Winter term break - no class		
22th Feb	Thurs	Winter term break - no class		
27th Feb	Tues	13	In-class test	S. Liao/P-Y von der Weid
<i>AIRWAYS INFLAMMATION</i>				
29th Feb	Thus	14	Introduction to the lungs and airways and immunology in asthma	R. Newton
5th Mar	Tues	15	Molecular immunology and asthma therapeutics	R. Newton
7th Mar	Thurs	16	Start mechanisms of glucocorticoid action	R. Newton
12th Mar	Tues	17	Mechanisms of glucocorticoid action + student presentations	R. Newton
14th Mar	Thurs	18	Student presentations: journal club and discussion	R. Newton
19st Mar	Tues	19	Student presentations: journal club and discussion	R. Newton
<i>Clinical Immunology (To be determined)</i>				
21rd Mar	Thurs	20	Cancer Immunotherapy	
26th Mar	Tues	21	Cancer Immunotherapy	
28th Mar	Thurs	22	Parasitology	
2nd April	Tues	23	Parasitology	
4th April	Thurs	24	TBD	
9th April	Tues	25	TBD	

notes

- a all written assignment (i.e. critiques and essays) due dates will be specified in advance by the individual lecturers
- b online classes provide via zoom with the lecture providing the site to the students
- c in class* - subject to cahnge based on Unviersity guidelines with students being informed in advance of a move to online if mandated
