GA(T) Positions – (2 Full)

**MDSC 407 – Statistics and Research Design for Health Sciences**
Winter 2020 term
Bachelor of Health Sciences Program, Cumming School of Medicine

Full GA(T) positions are available for Winter 2020 for MDSC 407 – Statistics and Research Design for Health Sciences

**Position Requirements:**

A graduate student is needed for a full-time (12hrs/week) GA(T) position for MDSC 407- Statistics and Research Design for Health Sciences. This undergraduate course provides an introduction to basic descriptive and inferential statistics commonly used in health sciences research.

The successful applicant will be mature, responsible and reliable; preferably in their 2\textsuperscript{nd} year or higher of their Masters or PhD program, with a specialization the Epidemiology, Biostatistics, or related areas. This position will require a graduate student with a strong grasp of the fundamentals of descriptive and inferential statistics (received a letter grade of A in Essentials of Biostatistics), and who enjoys teaching and interacting with undergraduate students.

The role of the GA(T) will be to support the instructors (Levi Frehlich and Anita Brobbey) in all aspects of MDSC 407, including:

- attending class sessions on Wednesdays (approx. 2.75 hours)
- coordinating computer lab sessions on Fridays (2 hours)
- managing submissions of assignments
- general and timely communication with students (class emails, follow-up with submissions, etc.) and the instructor
- providing timely grading support for five written assignments, two mid-terms, and a final project
- assisting with facilitation of in-class small group activities and group projects, as needed
- if the TA desires, there is an opportunity to deliver a lecture or class session

Interested students please send a completed [BHSc GA(T) Application](mailto:), a statement of interest, and CV to:

Levi Frehlich & Anita Brobbey
Email: lcfrehli@ucalgary.ca, anita.brobbey@ucalgary.ca

Application Deadline: **Friday, November 29, 2019**
