

2024 Guidelines & Application form

Dr. Phil Blustein Mind-Body Investigation and Management of Medical Conditions Award

Guidelines

Background: Dr. Phil Blustein was a Calgary gastroenterologist for 39 years, specializing in diseases of the digestive system. He was an Associate Professor at the Cumming School of Medicine. Throughout his career as a physician, Dr. Blustein became increasingly aware of the importance of the mind-body connection which was incorporated into his practice of medicine. He collaborated on a research study that demonstrated the value of Mindfulness Based Stress Reduction in the Irritable Bowel Syndrome. He wrote a book called “Mindfulness Medication: A Physician’s Prescription for Stress Relief.” He created a website <http://thebreathproject.org/> for stress management for his patients. He presently helps to organize a Calgary group WELLNESS THROUGH MINDFULNESS that offers free information on mindfulness and related topics. The website is: wtm.thebreathproject.org

Purpose: To encourage research related to applying mind-body connections as it relates to causality, course of the problem and treatments for patients with gastrointestinal disorders primarily, but research in this area related to any medical disorder will also be considered.

Deadline for application: September 16, 2024

To apply, please complete the application form below and forward the completed electronic copy and attachments to: medendow@ucalgary.ca , for the attention: Patty Beug-Jang

Late or incomplete applications will not be accepted.

Value of Award: up to \$5,100

Applicant Eligibility - the award is open to:

- Current undergraduate and graduate students enrolled at the University of Calgary from any faculty
- New investigators (as [defined by CIHR](#): an early career researcher (ECR) is a researcher within five years of the date of their first independent research-related appointment) within a Department or Division at the Cumming School of Medicine, such as but not limited to, the Department of Medicine or Division of Gastroenterology and Hepatology
- Medical allied professionals, such as but not limited to, nurses, psychologists, social workers with a University of Calgary affiliation. Provided that you can be a Project Holder at UCalgary as per Research Services guidelines at: [fr-guidelines-for-research-funding-20210621.pdf \(ucalgary.ca\)](#)

Application Process:

All submissions should have a collaboration with the Cumming School of Medicine, Division of Gastroenterology and Hepatology.

Eligible Use of Funds:

Research related expenses – which can include materials, sample collection, personnel (such as Research Associate).

Examples of eligible research studies/projects:

- How does stress impact the causality, course and treatment outcomes of gastrointestinal disorders
- Does modifying stress alter the nature of gastrointestinal disorders
- The use of psychiatric drugs and their impact on gastrointestinal disorders
- Exploring the use of psychedelic drugs in gastrointestinal disorders
- Are non-pharmacologic stress improving techniques such as mindfulness, meditation, yoga, Pilates, QiGong, hypnosis, CBT etc, helpful
- Developing a resource for patients to access stress-relieving techniques and evaluate their effectiveness
- How stress impacts gut microflora and its influence on gastrointestinal disorders
- How gut microflora can cause stress

The following type of projects are eligible:

- Individual research projects
- Joint applications from two or more investigators or research groups that foster collaboration will be considered
- Start-up research projects that have potential to grow to larger projects
- Smaller projects that can add value to existing projects

Length of award: 1yr

Reporting: The recipients of funding from the Award will be responsible for, upon request, providing a report to the Selection Committee and should acknowledge the donor when appropriate.
