# Precision Health Program

*Leading the Future of Healthcare Innovation*

## An innovative program in a growing field

Designed to meet the professional development needs of current and future healthcare practitioners, this unique program strengthens knowledge and skills in precision health, including clinical skills, data science, research, and education.

Cohort-based and part-time to accommodate students from diverse backgrounds, the Precision Health Program is course-based and comprised of a Graduate Certificate in Precision Health, a Graduate Diploma in Precision Health, and a Master of Precision Health with four specializations to choose from:

- Precision Medicine
- Quality and Safety Leadership
- Health Professions Education Leadership
- Innovation and Entrepreneurship

## Outcomes and next steps

---

The Precision Health program is a new transdisciplinary program for future health care leaders, entrepreneurs, and educators with the goal of improving patient care. The program was built for a broad audience of health care professionals, including medicine, veterinary medicine, nursing, pharmacy, psychology, optometry, dentistry, and other professionals who want to advance their careers and assume leadership positions.
