OADR Grant Development Office Weekly Digest

This message has been sent on behalf of the Office of the Associate Dean Research (OADR) Grant Development Office. If you have any questions or concerns, please contact Jenna Slobozian, Clint Westgard, Brandi Povitz, Adam Kirkby, Vienna Doenni or Deidra Dang.

1. Grant Development "Micro"-Tip
2. Funding Opportunities
3. GROWW Training Program
4. SSHRC Insights Grant Webinar in Arts
5. Research Support Environment - O'Brien Institute for Public Health

Grant Development "Micro"-Tip

Internal approvals are required at both the letter of intent and the full application stage. Your Department Head and the Associate Dean Research must approve your RMS record at each stage before the internal deadline—typically noon, 3 business days prior to the agency deadline. Always confirm the internal deadline(s) and approval process in the funding deadline calendar or by contacting medgrant@ucalgary.ca.

Funding Opportunities

New Frontiers in Research Fund: 2022 Exploration Competition

The goal of the Exploration stream is to inspire high-risk, high-reward and interdisciplinary research. Exploration grants support research that pushes
boundaries into exciting new areas. Researchers are encouraged to think “outside of the box,” undertake research that would defy current paradigms, and bring disciplines together in unexpected ways and from bold, innovative perspectives. Up to **$125,000/year for 2 years** ($100,000/yr in direct costs) is available for each successful project.

**Deadlines:**

- **Internal NOI:** June 21, 2022, at 9:00 am
- **External NOI:** June 28, 2022
- **Internal Final Deadline:** September 6, 2022, at 9:00 am
- **External Final Deadline:** September 13, 2022

More details can be found in the funding calendar. Interested faculty who would like to apply for this competition should contact Adam Kirkby.

To see other active funding opportunities, visit the Research Services Office (RSO) funding calendar.

---

**GROWW Training Program**

GROWW is a Health Research Training Platform (HRTP) supported by CIHR and IHDCYH. The Cohort program annually accepts a group of 20 clinical trainees, graduate students, post-doctoral fellows, and ECRs from across Canada chosen through a competitive application process. The GROWW program strives to positively impact the lives of all people who identify as women and to inspire individuals who are dedicated to propelling women’s health.

This 2-year training program will include seminars from academics within the field of women's and girls' health, experiential learning opportunities and workshops, mentorship partners, a summer institute, and professional networking to help co-create new research and/or employment opportunities. The **application deadline is June 30, 2022**, and the application information can be found on the website [www.growwwprogram.com](http://www.growwwprogram.com).

---

**SSHRC Insights Grant Webinar in Arts**

The Faculty of Arts will host a webinar on the upcoming Fall Insight Grant
competition. Current or recent members of the adjudication committees will share their insights and advice based on their experience as both applicants and adjudicators. The session will focus on an overview of the application and processes, and a discussion of strategies for different sections of the grant.

Date: May 18, 2022

Time: 10:00 am - 11:30 am MDT

Zoom Link: https://ucalgary.zoom.us/j/92154111773?pwd=SnBTQnVPWFMyWUx1YW0wZE1kVVBOZz09&from=addon
Meeting ID: 921 5411 1773
Passcode: 592974

Wondering if SSHRC funding is a possibility for your research program? In the past two years, we have had researchers from across all four CIHR pillars who have been successful at SSHRC. SSHRC is open to projects with health outcomes, provided the primary outcomes of the study advance knowledge and understanding in social sciences and humanities disciplines. Contact Clint Westgard to explore whether SSHRC is right for you.
W21C

Looking to bring new innovations to healthcare?

Did you know..... W21C, A centre within the O'Brien Institute, is an innovation initiative based in the University of Calgary and the Calgary zone of Alberta Health Services. W21C serves as a research and beta test site for prototypical hospital design, novel approaches to health care delivery, human factors research, and innovative medical technologies.

W21C offers researchers:

- Direct Access to the Patient Care Setting
- Research and Simulation Capabilities
- Access to interdisciplinary teams

To find out how W21C could support your research efforts please refer to the W21C website or contact W21C at: w21c@ucalgary.ca.
