

**Introducing the Clinical Inquiry Newsletter!** A quick way to catch up on the latest progress for **Research** and **Analytics** functionalities within Connect Care. Watch for this newsletter coming to you on a monthly basis. You can also find this information in the [Clinical Inquiry Blog](#) located on SharePoint.

### RESEARCH – Important Upcoming Events!

The Connect Care Support Team for Research has prepared a series of webinars directed to researchers going live into Connect Care during Launch 4 and future launches. Researchers already using the system are also welcomed to join. You can sign up by sending a request to: [cc.research@ahs.ca](mailto:cc.research@ahs.ca). Upcoming events include:

- **February 28, 2022:** A Day in the Life of a Principal Investigator
- **March 7, 2022:** Introduction to Research Conversion: Part 1
- **March 21, 2022:** Research Conversion: Part 2

### RESEARCH – Training Updates

- The SEUPA (Simulation End User Proficiency Assessment) now replaces the EUPA (End User Proficiency Assessment).
- Users who completed training for Launch 4 in 2021 can challenge training by writing the SEUPA rather than repeat in-class training. Emails have been sent in mid-February 2022 to users affected by this change.
- Questions? Email [ConnectCare.Training.Research@ahs.ca](mailto:ConnectCare.Training.Research@ahs.ca).

### RESEARCH – Research Staff ILT: Virtual Training Dates

- Monthly training sessions for sites live in Connect Care continue to be offered.
- Additional dates for Launch 4 have been added and enrollment instructions have been emailed to users requiring training.

### RESEARCH – What's New? Department Permission to Contact (PTC) List - Guidance Document

- A department PTC list tracks clinic patients who express interest in future research opportunities and give permission for research teams to contact them directly about participation.
- Directed to AHS Clinic/Department Managers and affiliated research teams interested in creating and sharing department PTC lists for research within their programs
- AHS departments can utilize the patient list functionality in Connect Care to capture PTC by adding patients to in-system personalized lists. Connect Care users can edit and share these lists. Furthermore, a specialized report allows filtering of patients from the list, to assist study teams in screening for potential participants.
- AHS clinics are responsible for the creation and management of patient lists. Research teams may be granted access to view patients that have provided PTC for research purposes.
- To access the document, please click here [Research Permission to Contact Lists Quick Start Guide \(albertahealthservices.ca\)](#)
- Questions? Email [cc.research@ahs.ca](mailto:cc.research@ahs.ca)

### REPORTING and ANALYTICS Analytics at Work Community of Practice (CoP) underway

The new Analytics at Work CoP started January 25<sup>th</sup>. Presentations are held the second and fourth Tuesdays of each month in a lunch n' learn format – 12:00 – 1:00 pm.

For more information about upcoming sessions and topics, go to: [Analytics at Work CoP - Home \(ahsnet.ca\)](#). To be added to the distribution list for Analytics at Work CoP sessions, please email: [EDWSAdministration@ahs.ca](mailto:EDWSAdministration@ahs.ca)

### Reporting Content Guides Updated!

New and updated Reporting Content Guides available as of January 28<sup>th</sup>! To view all available Reporting Content Guides go to the [Training Library](#) and search Training Content = Reporting Content Guide. End users can also find reporting content guides specific to their role on their Learning Home Dashboard.

Reporting Content Guides provide a list of important and useful reports, dashboards, components and SlicerDicer data models for specific applications and roles. With thousands of in-system reports, Reporting Content Guides provide a starting point in using Connect Care reporting tools operationally and at the point of care.

### REPORTING and ANALYTICS – Reporting Content Guides – *continued...*

| Course Name             | Document Name  | Application    | Training Phase                | Location | Training Content        |
|-------------------------|--|----------------|-------------------------------|----------|-------------------------|
| Learning Home Dashboard | <a href="#">Admission Supervisor Reporting Content Guide</a> | Patient Access | Learning Home Dashboard (LHD) | Urban    | Reporting Content Guide |
| Learning Home Dashboard | <a href="#">Allied Health Reporting Content Guide</a>        | Allied Health  | Learning Home Dashboard (LHD) |          | Reporting Content Guide |
| Learning Home Dashboard | <a href="#">AMH Reporting Content Guide</a>                  | AMH            | Learning Home Dashboard (LHD) |          | Reporting Content Guide |
| Learning Home Dashboard | <a href="#">Beacon Nurse Reporting Content Guide</a>         | Beacon         | Learning Home Dashboard (LHD) | Urban    | Reporting Content Guide |

An example of a key Continuing Care report is the **AHS Client and Resident Admitted in the Last 7 Days** report:

### AHS Client and Resident Admitted in the Last 7 Days

**Access Path:**

- From your Learning Home, select the ▼ to the right of the Nurse Manager Learning Home.
- Type in the name of the report in the search field
- Click enter
- A new window will appear with the report title for you to select

**Summary:** Long Term Care Clinicians and managers can use the AHS Client and Resident Admitted in the Last 7 Days Report to review recent admission volume.

**Usefulness:** The report includes the resident's name, age, sex, admission date and time, and service (which represents the Continuing Care Program).

| Detail | Program | Patient Name             | Birth Date | Age-Sex            | Admit Date/Time | Service |
|--------|---------|--------------------------|------------|--------------------|-----------------|---------|
|        |         | Fraser, Haylycia         | 20/09/1940 | 79-year old Female | 10/03/2020 1426 | LTC     |
|        |         | Long Term Care, March    | 15/03/1940 | 79-year old Male   | 10/03/2020 1545 | LTC     |
|        |         | Long Term Care, Princess | 04/02/1940 | 80-year old Female | 11/03/2020 0958 | LTC     |
|        |         | Post Acute, Daniel       | 12/12/1950 | 69-year old X      | 11/03/2020 1138 | ADP     |
