

# Deborah A. Marshall

Professor, Dept of Community Health Sciences

Arthur J.E. Child Chair Rheumatology Outcomes Research (2012 – 2022)

Canada Research Chair Health Services and Systems Research (2008-2018)

Email: [damarsha@ucalgary.ca](mailto:damarsha@ucalgary.ca)

Admin: [cpugh@ucalgary.ca](mailto:cpugh@ucalgary.ca)

Health Economics Twitter Handle: @Marshall\_HEcon

Deborah is a health economist and health services researcher leading a programme of applied research using patient preferences, patient engagement and simulation modelling methods. Dr Marshall leads the health economics, socioeconomic benefits, patient preferences and patient engagement activities for several national and international research programmes (funded by CIHR and/or Genome Canada) in precision health and patient-oriented research to develop health economic tools and approaches to evaluate outcomes: 1) **UCAN CAN-DU** (Understanding Childhood Arthritis Network Canada-Netherlands) and 2) **UCAN CURE** (Precision Decisions for Childhood Arthritis personalized medicine networks in childhood arthritis combining genomic techniques, machine learning methods and simulation modelling to predict response to treatment and its associated health outcomes and economic impact; 3) **SOLVE** Care4Rare Canada - harnessing multi-omics to deliver innovative diagnostic care for rare genetic diseases; 4) **TIGeR** (Translational Implementation of Genomics for Rare diseases), partnership with Medical Genetics and Alberta Provincial Laboratory for the clinical application of genome wide sequencing; and 5) **IMAGINE** Strategy for Patient Oriented Research (SPOR) Chronic Disease Network (Inflammation, Microbiome, and Alimentation: Gastro-Intestinal and Neuropsychiatric Effects, CIHR SPOR) on inflammatory bowel disease and the microbiome. She is a Founding Member of the Global Economics and Evaluation of Clinical Genomics Sequencing Working Group (GEECS).

Deborah is the Principal Applicant of the CIHR Health Systems Impact Fellowship National Training Program - "*Enhancing a Community of Practice for the Health System Impact Fellowship Program: Advancing Capacity for Sustainable & Patient-Centered Learning Health Systems across Canada*" to create a community of practice towards achieving high-performing, patient-centered learning health systems across Canada. In addition, she is the former chair of both the Arthur J.E. Child Chair of Rheumatology Outcomes Research; and Canada Research Chair, Health Services and Systems Research (2008 - 2018). Deborah also holds various memberships in University of Calgary and Alberta Health Services: 1) Alberta Children's Hospital Research Institute (ACHRI) Member as well as Scientific Director of Research and Partnership Evaluation and Impact; 2) O'Brien Institute of Public Health Member; 3) McCaig Institute of Bone and Joint Health Member; 4) Senior Scientist at Arthritis Research Canada.

Deborah is a founding co-investigator of the innovative Patient and Community Engagement Research (PaCER) programme at the University of Calgary which trains patients to design and conduct health research, using specific adapted methods of qualitative inquiry. She is an active member of the International Society for Pharmacoeconomics and Outcomes Research (ISPOR) as the Past President of the Board of Directors, the Chair of the Dynamic Simulation Modeling Applications in Health Care Delivery Research Task Force and as a member of the Patient Preferences Special Interest Group, the Optimization Methods Task Force and co-author of related ISPOR Task Force Reports. She has also served as a member of the Board of Directors for Health Technology Assessment International (HTAi) and is a member of the HTAi Patient Preferences Working Group. She was co-chair of the Scientific Research Committee and Board of Directors of the Arthritis Alliance of Canada (AAC), and is a member of the Scientific Advisory Committee of the Alberta PROMs & EQ-5D Research & Support Unit (APERSU).

## Selected Publications (n=280 / past 5 yrs=134)

### IN PRESS:

6. Kip MMA, de Roock S, Currie G, **Marshall DA**, Grazziotin LR, Twilt M, Yeung RSM, Benseler SM, Vastert SJ, Wulffraat N, Swart JF, IJzerman MJ. Pharmacological treatment patterns in patients with juvenile idiopathic arthritis in the Netherlands: a real-world data analysis. *Rheumatology*, May 2022; <https://doi.org/10.1093/rheumatology/keac299> (in press)
5. Mirza RM, MacKean G, Shaffer SR, Sewitch MJ, Heisler CG, McLeod J, Habashi P, MacDonald KV, Barker K, Nguyen GC, **Marshall DA**. Patient experiences in the management of inflammatory bowel disease: A qualitative study. *Journal of the Canadian Association of Gastroenterology*, May 2022; <https://doi.org/10.1093/jcag/gwac014> (in press)

4. **Kennedy BL**, Currie GR, Kania-Richmond A, Emery CA, MacKean G, **Marshall DA**. Factors That Patients Consider in Their Choice of Non-Surgical Management for Hip and Knee Osteoarthritis: Formative Qualitative Research for a Discrete Choice Experiment. *The Patient -- Patient-Centered Outcomes Research*, March 2022. <https://doi.org/10.1007/s40271-022-00577-9> (in press)
3. **Kennedy BL**, Currie GR, Kania-Richmond A, Emery CA, MacKean G, **Marshall DA**. Patient beliefs about who and what influences their hip and knee osteoarthritis symptoms and progression. *Musculoskeletal Care*, Feb 2022; (in press) <https://doi.org/10.1002/msc.1620>
2. Currie GR, Pham T, Twilt M, Ijzerman MJ, Hull PM, Kip MMA, Benseler S, **Hazlewood GS**, Yeung R, Wulfraat N, Swart JF, Vastert SJ, **Marshall DA**. Perspectives of pediatric rheumatologists on initiating and tapering biologics in patients with Juvenile Idiopathic Arthritis: A formative qualitative study. *The Patient - Patient-Centered Outcomes Research*. Feb 2022 (in press). <https://doi.org/10.1007/s40271-022-00575-x>

Constructing experimental designs for discrete-choice experiments: Report of the ISPOR conjoint analysis experimental design good research practices task force. *Value in Health* 2013;16:3-13.
2. Frank C, **Marshall DA**, Faris P, Smith C. Essay\ for the CIHR/CMAJ award: Improving access to hip and knee replacement and its quality by adopting a new model of care in Alberta. *CMAJ*, 2011;183(6):E347-50.
1. Bridges JFP, Hauber B, **Marshall DA**, Lloyd A, Prosser LA, Regier DA, Johnson FR, Mauskopf J. Conjoint analysis applications in health – a checklist: A report of the ISPOR good research practices for Conjoint Analysis Task Force. *Value in Health*, 2011; 14(4):403-13.

## **Selected Research Funding**

(Role: Co-investigator) IMAGINE 2.0 (Inflammation, Microbiome, and Alimentation: Gastro-Intestinal and Neuropsychiatric Effects) SPOR Clinical Disease Network – Knowledge Translation Implementation, CIHR, 2022 – 2026, \$937,500

(Role: Consortium Coordinator) Producing an Arthritis Value-framework with economic Evidence-paving (PAVE) the way for rare childhood diseases, European Joint Programme Rare Diseases (EJPRD) / CIHR, 2022 – 2025, €1,314,403

(Role: PI) Enhancing a community of practice for the Health System Impact Fellowship Program: Advancing capacity for sustainable & patient-centered learning health systems across Canada, CIHR Health System Impact Fellowship National Cohort Retreat, 2021 – 2023, \$200,000

(Role: Collaborator) Innovative National Strategies for Patient-Oriented Research Education (INSPIRE), CIHR Training Grant Strategy-for Patient-Oriented Research National Training Entity (NTE), 2021 – 2027, \$5.2M

(Role: PI) Bringing the patient voice into decision making in health, University of Calgary International Researcher Partnership Workshop Grant, 2021 – 2023, \$10,000

(Role: PI) Co-designing youth-centered processes for transition to adult arthritis care with patient partners, Alberta Children's Hospital Foundation (ACHF) Child Health Grant, 2020 – 2022, \$60,000

(Role: Co-investigator) A multicenter, double blind, randomized trial comparing lyophilized fecal filtrate to lyophilized stool in treating recurrent, clostridiodes, difficile infection, CIHR Project Grant Fall 2019, 2020 – 2024, \$1.3M

(Role: Co-investigator) Understanding the effect and determinants of adherence to system-level performance measures on outcomes for rheumatoid arthritis, CIHR Project Grant Fall 2019, 2020 – 2023, \$229,500

(Role: Co-investigator) Canadian MSK Rehab Research Network, CIHR Network Catalyst Grant, 2020 – 2025, \$1.9M

(Role: Co-investigator) TIGeR: Translational Implementation of Genomics for Rare Diseases, Genome Alberta, Genomic Applications Partnership Program (GAPP), 2020 – 2023, \$2M

(Role: PI) Let's start counting (and make it count)! A scoping review of the socioeconomic burden of rare genetic diseases, CIHR Knowledge Synthesis Grant: Socio-Economic Burden of Inherited Diseases, 2019 – 2020, \$99,545

(Role: PI) Biosimilar starts and switches, what we can learn from patients?, Arthritis Alliance of Canada (AAC) Legacy Grant, 2019 – 2020, \$35,000

(Role: PI) Towards a patient-centered system: Integrating preferences of patients with osteoarthritis into evaluation of healthservices interventions to improve patient outcomes and health system efficiency, CIHR 2019 – 2022, \$283,051

(Role: Co-investigator) Establishing the validity of quality of life measures in young children with juvenile idiopathic arthritis, Arthritis Society 2019 - 2021, \$324,039

(Role: Co-investigator) CARE4RARE Canada: Harnessing multi-omics to deliver innovative diagnostic care for rare genetic diseases in Canada (C4R-SOLVE), Ontario Genomics/Genome Canada, LSARP Genomics & Precision Health Grant, 2018 - 2024, \$12.8M

(Role: Co-investigator) UCAN CURE Precision Decisions for Childhood Arthritis, Ontario Genomics/Genome Canada, LSARP Genomics & Precision Health Grant, 2018 – 2024, \$10M

(Role: Co-PI) Eliciting patient preferences for prioritization of healthcare processes in the management of inflammatory bowel disease,Crohn's Colitis Canada, 2017 - 2020, \$250,000

(Role: Co-investigator) UCAN CAN-DU: Canada-Netherlands personalized medicine network in childhood arthritis and rheumatic disease, CIHR, 2017 - 2022, \$8.1M

(Role: Co-PI) Inflammation, Microbiome, and Alimentation: Gastro-Intestinal and Neuropsychiatric Effects: the IMAGINE-SPOR chronicdisease work, CIHR SPOR Network Grant, 2016 - 2021, \$12.5M
