

Job opportunity:

Deborah Marshall, Tracy Wasylak, and Elena Lopatina from the Department of Community Health Sciences are looking for a Research Associate to support to the Alberta Pain Strategy, Chronic Pain Working Group in the evaluation of multi-disciplinary programs for chronic pain management.

This Casual Term Part-time (2-3 days per week, 4-7 hours per day) position is for approximately 3 months. Primary responsibilities will include:

- Assisting with the development of data extraction tools,
- Assisting with a review of paper and electronic medical charts
- Conducting data extraction in a standardized manner while ensuring information is recorded accurately, and
- Assisting with other project tasks as needed.

Careful attention to detail, and strong communication (including documentation) is essential. Demonstrated understanding of quantitative and qualitative research methodologies, in particular experience in chart reviews would be an asset.

Masters or PhD (completed or in progress) in health services research or a related field would be an asset.

If you are interested in this research opportunity or require any additional information, please contact Elena Lopatina at elopatin@ucalgary.ca.
