ANNOUNCEMENT: DR MARCIA CLARK'S DEPARTURE AS ATSSL MEDICAL DIRECTOR

The Advanced Technical Skills Simulation Laboratory Team bids our Medical Director, Dr. Marcia Clark a fond farewell. Since 2015, as the ATSSL Medical Director, Dr Clarke played a significant role in change, adaption, and ultimately improvement of simulation curricula locally, nationally and internationally. Dr Clarke played a key part in the ATSSL, joining over 20 other accredited national and international simulation labs, in the receipt of accreditation as a Simulation Program of the Royal College of Physicians & Surgeons of Canada (RCPSC) in 2018.

While Dr Clark is stepping down from her role as the ATSSL Medical Director, she will remain a prominent part in the UCalgary simulation-based learning community, as she holds a UCalgary clinical faculty appointment and is the Vice-Chair of Surgical Foundations at the Royal College of Physicians and Surgeons of Canada (RCPSC) helping to frame and implement Competency Based Medical Education in Surgery across Canada.

Please join the ATSSL in thanking Dr Clark for all her hard work and wishing her the very best as she pursues her next great endeavors.
