- Questions

Physician training

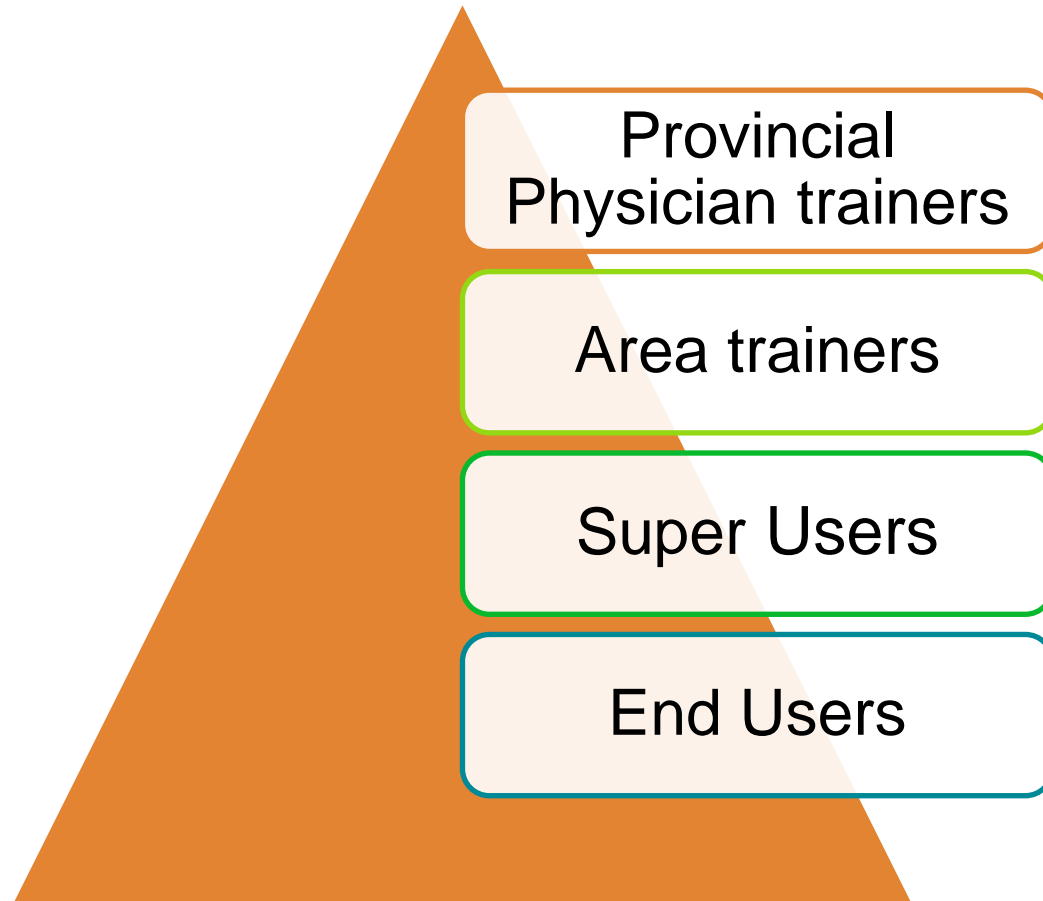

Physician Training Principles

- Physicians will train physicians
- “Day in the Life” philosophy
- With a clear mandate of respecting physician time
- In a modular fashion with flexible access
- Will support variety of learning styles
- Working to secure CME credits
- A primary training track will provide all training required to be functional within the system
- Training tracks will include basic functionality, specialist specific apps, and key applications such as portals (MyChart; Epicare Link) analytics (Cogito); mobile accessibility (Haiku and Canto)

Physician Training Tracks

- Inpatient Admitting/Consulting
(includes sub tracks for Internal Medicine and subspecialties; Critical Care**; Hospitalists; Family Medicine)
- Ambulatory
- Surgery
- Anaesthesia
- Cardiology
- Emergency Medicine
- Gastroenterology
- Obstetrics and Gynecology
- Oncology
- Pathology
- Pediatrics
- Psychiatry
- Radiology
- Rural Medicine
- Medical Learners
- Prescribers
- Physician Support Roles
