

Invitation status: Survey options

Editing existing Record ID

Event: 2023 Week 02: Jan 08 to Jan 14 (Arm 4: 2019FLU)

Record ID

Sentinel Health Region: _____

Clinician name
Only necessary if filling out multiple forms for multiple clinicians

How many patients did you see this week?

Given the addition of COVID-19 vaccine effectiveness to our study, we now ask our sentinels to differentiate patients seen into two categories:

1) Acute Respiratory Illness with a cough

2) More severe Respiratory illness which meets the case definition for an Influenza-Like Illness (fever AND cough with one or more of the following additional symptoms: sore throat, myalgia, arthralgia or prostration. Fever not required for ILI in the elderly (65+ years of age).)

I was working in clinic this week Yes No
* must provide value reset

Sunday: Total patients seen

Monday: Total patients seen

Tuesday: Total patients seen

Wednesday: Total patients seen

Thursday: Total patients seen

Friday: Total patients seen
