

Better control in Pediatric and Adolescent diabetes: Working to create Centers of Reference

The Diabetes clinic at the Alberta Children's Hospital is a proud member of the SWEET network.

The SWEET project is an international quality assurance project which helps us find out how well we are doing as a pediatric diabetes clinic and helps us learn how to better care for children with diabetes.

The Diabetes clinic at the Alberta Children's Hospital contributes anonymous data from clinic visits to the SWEET database.

Currently, 157 diabetes centers in 64 countries all over the world participate in SWEET.

If you have any questions or concerns about SWEET, please speak with your provider or contact the research coordinator at 403-955-8866
