

I Challenge Diabetes  
Live Speaker Series:

# Assiniboine Adventures on Auto Mode! with T1D Olympian Chris Jarvis

ICD Founder Chris Jarvis demonstrates how the Minimed 670G and Guardian Sensor helped him conquer the rugged trails of Mount Assiniboine this summer.

"Knowing that I have the support of MiniMed 670G and Guardian Sensor technology adapting to me, and trusting that it will keep up to my activity, allows me to live my life to the fullest and guide others with diabetes to do so, too!"
