

Tandem Pumpers:

We are excited to introduce **Tandem Source** – our new software platform!

Join us to learn how **Tandem Source** can help you manage your diabetes.

Terance
diagnosed 2008

This training session will explore Tandem Source software which **replaces Glooko** for pump data reporting, providing a smoother and more efficient experience for you.

In this webinar, you will learn :

- Why use Tandem Source?
- How to create an account, upload your pump and share with your diabetes care team
- How to look at your diabetes data

Sessions will be presented by Tandem's Clinical Diabetes Specialists and offered on multiple dates and times.
