

## ATTIRE – MEDICAL STUDENTS

### Purpose of this Document:

Outline to medical student appropriate dress attire.

- Students are expected to adhere to relevant policies regarding dress code and use of personal protective equipment in any clinical or laboratory settings that have protocols due to potential physical and/or infectious risks. Examples include the anatomy lab, operating room, etc. Alberta Health Service (AHS) have policies within their facilities that can be found at <https://insite.albertahealthservices.ca/>
- Students must wear their name badges at all times in the clinical settings. The white coat may expected.
- It is expected that the dress and grooming of student physicians will be in accordance with the expectations of their patients and the clinical setting.
- A student may be excluded from educational or clinical activities if the student does not meet dress and/or personal protective equipment guidelines required for student or patient safety.
- Students may consult with preceptors, UME or Student Advising & Wellness to advise on expectations regarding personal presentation.
