CALGARY COPD & ASTHMA PROGRAM

Breathe Well... Live Well

403.944.8742

www.ucalgary.ca/asthma

We can help you with:

Chronic Obstructive
Pulmonary Disease (COPD)

Asthma

Chronic Cough

Smoking Reduction

What to expect at your appointment

An appointment consists of an individual meeting with a Certified Respiratory Educator and when appropriate includes:

- Information and education about the individual's lung condition
- History review of lung health
- Breathing medication review
- Action Plan
- Breathing test
- Smoking reduction counselling
- Communication with your family doctor

Chronic Cough Clinic

What is chronic cough?

A cough which lasts more than 4 weeks and is surprisingly one of the most common reasons people visit their family doctor.

Our Certified Respiratory Educators can help you bring your cough under control.

What we do:

Improve the lives of those affected by asthma, COPD, tobacco and chronic cough by providing lung health care and leadership through education and self-management skills.
