

DRAKE

Asthma Coloring Book

While he was sleeping,
Alone in the dark,
Drake the Dragon
Awoke with a start.

Once in a while,
He would wake in the night,
Trying to breathe,
His chest feeling tight.

Drake was a dragon.
He enjoyed breathing fire.
But with his tight chest
His flames would expire.

This would happen at times,
Standing with Gus
Out in the cold
While he'd wait for the bus.

And times on the playground
Jumping his rope
Or camping with friends
Around too much smoke.

Drake asked his mother,
“Why is it hard,
To breathe and blow fire
When I play in the yard?”

“I have noticed too
I feel like that
While playing next door
With Gus’s small cat.”

His mother said, "Drake,
It's asthma you see.
Let's pay a visit to
Dr. Raavi."

Dr. Raavi gave Drake
A few simple tests,
And they talked about asthma,
Dragons, and breath.

Dr. Raavi told Drake
To breath in warm air,
To keep his room clean,
And with pets to take care.

By knowing his asthma,
At night when he'd tire,
It would help Drake breath easy.
It would help Drake blow fire!

Drake became careful
Out in the snow
While jumping his rope
And cleaning at home.

Drake even shared
With his friend Gus
About dragons and asthma
As they sat on the bus.

Now while he's sleeping
In his warm bed,
Drake the Dragon
Sleeps soundly instead.

No waking at night
With a tight chest.
Drake now sleeps soundly
And gets plenty of rest.

Help Drake find his way home!

Can you help Drake find his way home, avoiding asthma triggers along the way?
