FREE ONLINE MODULES

Acute Stroke Care E-Learning Program

The Need for Speed

COURSE OVERVIEW

Acute Stroke Care e-Learning is an online portal provided by the Quality Improvement & Clinical Research (QuICR) Alberta Stroke Program and the University of Calgary CME&PD. In this online portal, there are multiple, self-paced e-learning modules designed for various professionals of the health team involved in acute stroke care in Alberta. You will also find most up-to-date tools and resources for your clinical practice of acute stroke care.

COURSE OBJECTIVES

After completing the online modules, participants will be equipped to:

- recognize the latest evidence in acute stroke treatment
- use the Alberta protocols for the rapid transportation, assessment and treatment of acute stroke patients
- develop strategies with team members to improve treatment efficiency times
- perform your role in the rapid process of team care for acute stroke patients

WHO SHOULD COMPLETE THE ONLINE MODULES

Allied Health Professionals
Dispatch
Diagnostic Imaging Technicians
Emergency Department Physicians
Emergency Department Nurses
Neuro-interventionalists
Neurologists
Paramedics, MFR & EMS
