Sharper, faster imaging.

Designed to make ultrasound easy to use. Simply connect the probe to your compatible iOS or Android device, select from 21 presets in seconds with the swipe of a finger — and start scanning.

Cardiac

Monitor vascular abnormalities, perform TTE, and more.

Cardiac

MSK

Lung

Evaluate respiratory distress and reliably detect the presence of B-lines.

Lung

Bladder

Bladder

Get automated bladder volume calculations, along with a 3D rendering, in moments.

One probe. Five imaging modes.

Five imaging modes, with distinct applications across specialties.

B-mode

M-mode

Color Doppler

Power Doppler

Pulsed-Wave Doppler

Guide procedures with confidence.

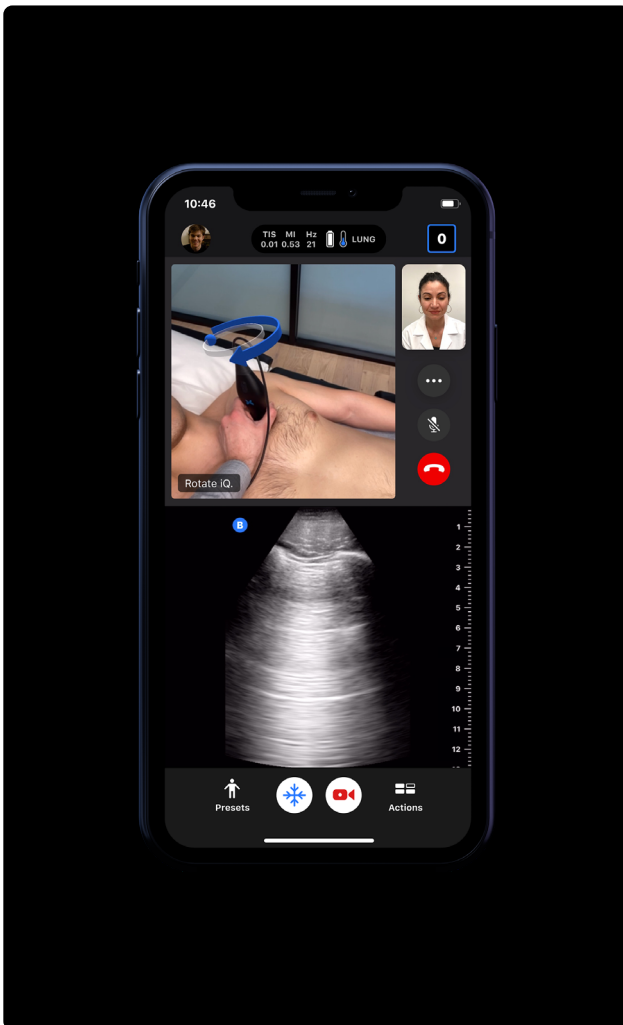

Precise guidance for difficult line placements. Visualize the long and short axis simultaneously with Biplane Imaging™, and highlight needles on-screen with NeedleViz™ technology.

Connected care is stronger care.

Go from scanning to documentation in moments. Butterfly iQ+ is paired with our software's storage and collaboration features, to help you get the most out of every image.

Give or receive ultrasound guidance, wherever you are.

Video call with collaborators while scanning with TeleGuidance™. They'll see your capture in real time, and can remotely adjust preset, mode, gain and depth.

Getting a consult: now as easy as sending a text.

Send out studies, with sensitive information removed, without leaving the Butterfly app.

Store every image, safely and securely.

The Butterfly cloud offers unlimited secure image storage. Team image archives enable real-time commenting and seamless study documentation via customizable worksheets.

Ultrasound has never been easier.

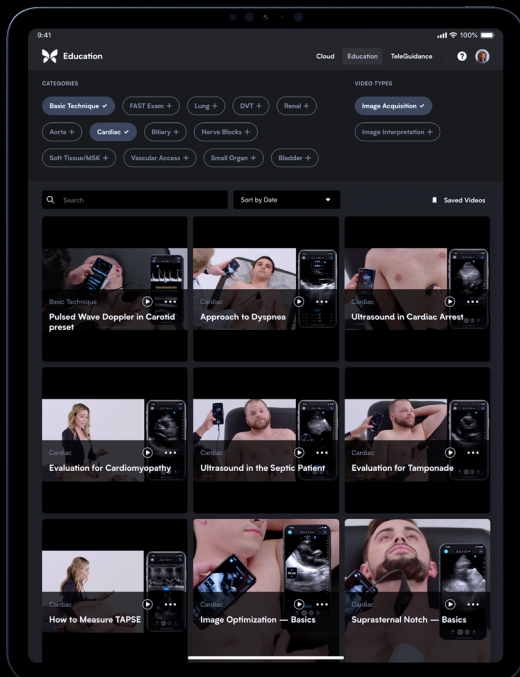

Robust educational offerings that meet you where you are in your ultrasound journey.

Get real-time scanning guidance.

Educational View Guidance provides real-time feedback on image quality to help you capture the best image.

Find confidence in moments.

Access quick, expert-led video tutorials covering dozens of applications, all without leaving the Butterfly app.

Built to last your toughest shifts.

Ready when you need it. iQ+ is proven by military-grade* testing to withstand a 4-foot drop. Water and dust resistant,** and equipped with a replaceable stomp- and compression-tested cable.

* MIL-STD-810G

** IP67 up to the line on the back of the probe.

Full feature list.
