

# We need YOU!

## Rural Alberta physicians:

Help introduce the next generation of physicians to your community.

RhPAP's Rural Mentorship Program is an excellent way to promote your practice and community to first- and second-year medical students considering working in rural Alberta. Physicians are compensated for their time.

### **To facilitate mentorship experiences, physician preceptors must:**

- Be located within two-hour drive of Calgary or Edmonton
- Have privileges at their local rural hospital
- Be providing services at their rural hospital on any weekend days during which they plan to participate in the program
- Live and practise in the community in which they are mentoring (cannot be a locum)

Physician preceptors pick the weekend times and dates that work for them, and RhPAP will take care of the rest! Participate as many or as few times as you wish.

Don't miss this opportunity to promote your practise and community to medical students considering practice in rural Alberta!

**To become a preceptor or to get more information email [mentorship@rhpap.ca](mailto:mentorship@rhpap.ca).**

# RhPAP has helped rural Alberta communities keep health care close to home since 1991.

## RhPAP is here to support rural health professionals

---

### **Enriching your skills**

RhPAP's continuing education and skills enrichment programs for rural health professionals enhance the delivery of high-quality health care close to home.

### **A place to RESIDE**

RhPAP administers the Rural Education Supplement and Integrated Doctor Experience (RESIDE) Program for new-in-practice physicians, and provides accommodations to health-care learners including medical students, resident physicians, and nursing students as they develop their skills in rural Alberta communities.

### **Locum support**

RhPAP supports AMA Physician Locum Services® who provide short-term locum service to physicians practising in rural Alberta.

## RhPAP is here to improve the lives of rural Albertans.

---

### **From Rural Alberta, for Rural Alberta**

With staff located throughout Alberta, RhPAP is supporting the home-grown efforts of rural Albertans to attract and retain health professionals in their communities.

### **Telling the rural Alberta health-care story**

RhPAP's skilled communications team puts rural Alberta stories first, using traditional and new media to ensure the rural voice is heard.

### **Introducing future health professionals to rural practice**

RhPAP offers opportunities for communities to invite future health professionals to visit and experience rural life. In-person and virtual Let's Go Rural! events expose rural high school and post-secondary health-care students to lifestyles and careers in rural Alberta, and educational expectations for those careers.
