

CanREACH

Dear: [Insert Name Here]

Primary Care Providers consistently report that the single area they lacked training in medical school is mental health, in particular, pediatric mental health. CanREACH offers education and training services to transform health systems by empowering primary care providers like yourself to know and use the most effective evidence based methods for identifying and treating pediatric mental health conditions.

- WHAT** CanREACH offers a Continued Medical Education (CME) training program licensed and developed by The REACH Institute: “Patient-Centered Mental Health in Pediatric Primary Care (PPP)”, adapted for Canadian Primary Care Providers. The PPP is a 6-month mini-fellowship CME that includes both a dynamic three-day interactive course followed by a six-month, case-based distance-learning program.
- WHO** CanREACH is offered to primary care providers (i.e., pediatricians, family physicians) practicing in Alberta.
- WHEN** CanREACH is offered twice yearly in both Calgary and Edmonton. Space is limited and sessions fill quickly.
- COST** \$800 CAD
- VALUE** Not only does CanREACH “change physician practices”, it is accredited in Canada with both the Royal College and the College for Family Physicians Canada for over 25 CME hours.

UPCOMING SESSIONS

CALGARY

October 2019 - April 2020

Workshop: October 18 - 20

April 2020 - October 2020

Workshop: April 17 - 19

October 2020 - April 2021

Workshop: October 16 - 18

April 2021 - October 2021

Workshop: April 16 - 18

EDMONTON

September 2019 - February 2020

Workshop: September 20 - 22

December 2019 - June 2020

Workshop: December 6 - 8

March 2020 - September 2020

Workshop: March 6 - 8

June 2020 - December 2020

Workshop: June 5 - 7

December 2020 - June 2021

Workshop: December 4 - 6

June 2021 - December 2021

Workshop: June 4 - 6

WHAT YOUR COLLEAGUES ARE SAYING

“Great Course! Best in my 17 years in practice.” - Dr. Nathalie deBruin

“I wish I would have had the tools and confidence that I gained from CanREACH years ago. If I had, my kids and their families would not have had their treatment delayed. Well, no more! I now have the skill and ability to diagnose and treat my kids in their Medical Home. Thank you!” - Dr. Tammy McKnight

“The curriculum is well thought out and contains components (intensive training and longitudinal case conferences) that promote long-term change.” - Dr. Evelyn Ma

“This course empowers physicians to become and feel competent in managing these cases. The previous difficulty was because of lack of training rather than difficulty of patients. This course should be available to all Alberta physicians, and is really the only way we are going to help these patients.” - Dr. Neil Cooper
