Dosing and Administration1

Recommended dose

The dose of Vascepa® is 4 grams/day taken as:

**Two 1 gram capsules**, twice daily with food

AM

PM

Missed dose

If the patient misses:

**One dose of Vascepa®**

They should take the dose as soon as they remember

**One day of Vascepa®**

They should not double the dose when they take their next dose

Vascepa® (icosapent ethyl) is indicated to reduce the risk of cardiovascular events (cardiovascular death, non-fatal myocardial infarction, non-fatal stroke, coronary revascularization or hospitalization for unstable angina) in statin-treated patients with elevated triglycerides, who are at high risk of cardiovascular events due to:

- established cardiovascular disease, or
- diabetes, and at least one other cardiovascular risk factor1
