Patient Information

Bayer is here for you throughout and beyond the COVID-19 pandemic. Please reach out to your women's health account specialist with any questions or requests.

Kyleena® (levonorgestrel-releasing intrauterine system [19.5 mg]) is indicated for conception control for up to 5 years.

Mirena® (levonorgestrel-releasing intrauterine system) is indicated for:

- conception control for maximum up to 5 years
- treatment of idiopathic menorrhagia following appropriate diagnostic investigation in women accepting the contraceptive effect of Mirena®

Consult the Kyleena® and Mirena® Product Monographs at <https://bayer.ca/omr/online/kyleena-pm-en.pdf> and <https://bayer.ca/omr/online/mirena-pm-en.pdf>, respectively, for contraindications, warnings, precautions, adverse reactions, interactions, dosing and conditions of clinical use. The Product Monograph is also available by calling 1-800-265-7382.
