

What do you need to know?

- The existing Royal College Resident ePortfolio program for tracking CBD elements ends December 2024
- University of Calgary’s Cumming School of Medicine decided to transition to LGI Education (MedSIS 3C) before the end of 2024
- **Phase 1 of the LGI Education (MedSIS 3C) implementation is targeted for release on October 2, 2024.** Phase 1 includes CBD elements only (EPA/narrative observations and competence committee meeting/decision support).
- There will be three release waves through October to November 2024. **The first wave includes 23 programs that will be targeted for release on October 2, 2024.**
- Phase 2 is in the planning and development stage with a targeted release of July 2025. Phase 2 will include transitioning other workflows currently supported by one45 to LGI Education (MedSIS 3C).

What’s in it for Residents?

- Mobile-friendly interface
- EPA template remains the same
- Residents can now pre-fill assessments **OR** submit forms on behalf of Preceptor (with verbal consent)

Options for Residents:

-  Send a **“blank” form** to the Evaluator (preceptor gets an email notification with a link to form)
-  **Prefill the form** and send to the Evaluator (preceptor gets an email notification with link to form – can edit as needed)
-  Complete the form **“Submit as Evaluator”** (preceptor gets an email notification) (Residents should get permission to do this!)

The system will be released in 3 program “waves”. **Go Live for Wave 1 is targeted to be October 2, 2024.**

System Access

- User / Login IDs have been created using your **Ucalgary email address the program has on file.**
- On October 2, you will receive MedSIS 3C log in instructions, and more information on how to use MedSIS 3C.

RC ePortfolio

- No new data should be entered into RC ePortfolio after your launch date. Any outstanding EPA requests should be resent in MedSIS 3C on this date.
- We strongly advise that you download a copy of an Observation Summary Report from RC ePortfolio in the days following your launch (instructions on how to do this and how to use this file in the YYCCBD dashboard can be found at <https://cumming.ucalgary.ca/sites/default/files/teams/6/CBD/CBD%20Dashboard%20Instructions%20.pdf>). This will enable you to keep track of your EPA progress in your current stage.
- The RC ePortfolio system will be turned off in early December 2024. All data in the system will no longer be accessible.

Training

- **All users**, including Residents, Preceptors, Academic Advisors and Competence Committee Members, will have access to training materials, including Quick Reference Guides on the PGME website. <https://cumming.ucalgary.ca/pgme/medsis-information>
- Links to these materials will be available in late September 2024

October 2024 – MedSIS 3C Implementation Update

Targeted Go-live dates by Program

Wave 1 - October 2		Wave 2 - October 23	Wave 3 - November 13
