

Logging into MedSIS 3C – October 2nd 2024 onwards

- 1) Using your web browser, you should be able to “Continue with SSO” on the MedSIS 3C site. SSO means “single sign on” – that means you will be validated / authenticated by Microsoft and the University of Calgary, limiting your login steps in the future.

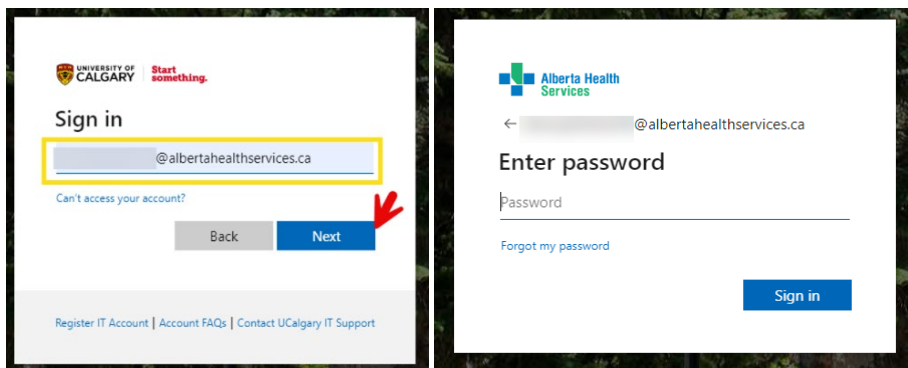

2) Logging in with UCalgary email?

- Enter your UCalgary email credentials.

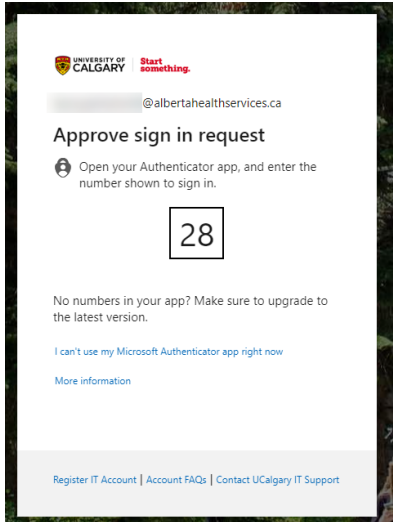

3) Logging in with AHS (or affiliated email account)

- Enter your AHS email credentials.
- **The pop-up window may show the U of C logo, but it will change back to AHS on the next screen.**

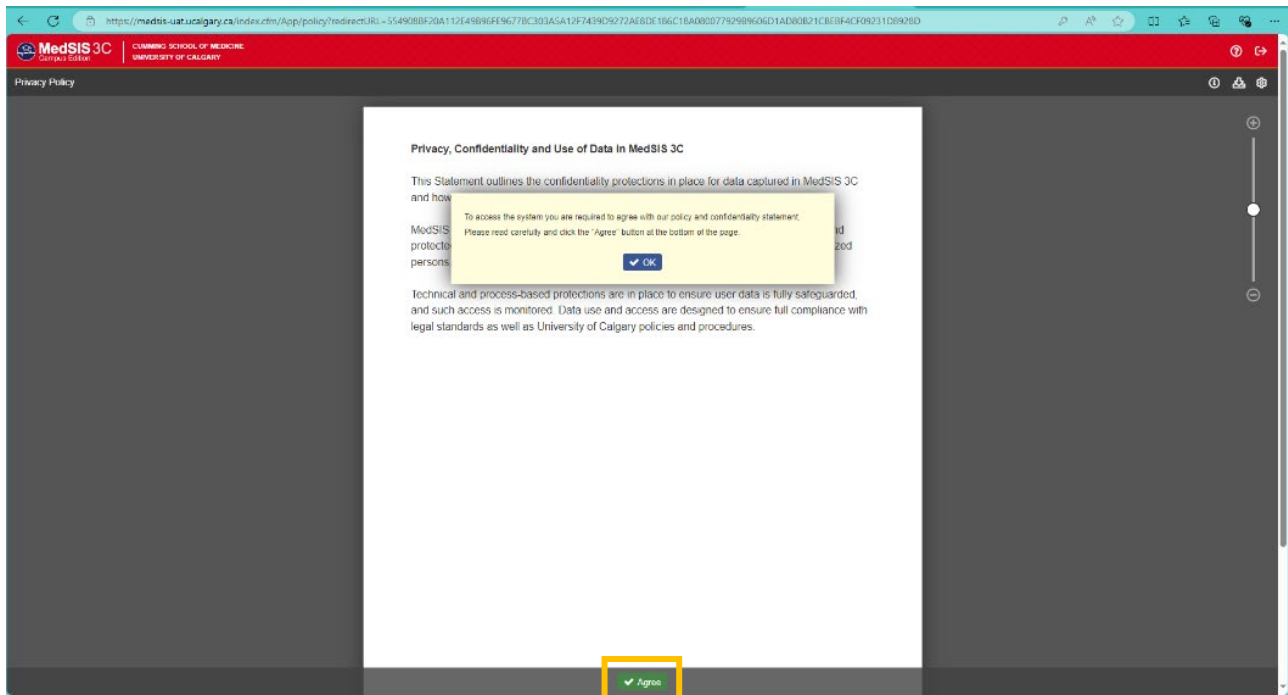

You will need to re-login every 30 days per device. If you are using a shared device, you must log out at the end of each session, or your confidential information can be accessed by someone else.

- 4) You will need to enter the number that pops up on your screen, in the Microsoft Authenticator app.

- 5) Accept the Privacy, Confidentiality and Use of Data statement in MedSIS. This will not be displayed again after you accept it for the first time.

- 6) You will be re-directed to the MedSIS 3C home page.
