Dr. Laura Morrison - Orthopedic Surgery, PGY5. *1. Time from Injury to Surgery Influences Surgical Technique and complication Rate in Distal Biceps Tendon Repair; 2. Functional Outcomes of Distal Biceps Tendon Rupture: A Comparison of Surgical and Non-Surgical Treatments*. International Federation of Societies for Surgery of the Hand (IFSSH) Congress. March 2025

Dr. Brodie Ritchie - Orthopedic Surgery, PGY4. *International Scapholunate Ligament Injury Using Weight Bearing CT*. International Federation of Societies for Surgery of the Hand (IFSSH) Congress. March 2025

Dr. Nariman Sepehrvand - Internal Medicine, PGY2. *Machine Learning model for Predicting Recovery of Left Ventricular Ejection Fraction in Patients with Heart Failure and Reduced Ejection Fraction*. Annual Scientific Session of the American College of Cardiology. March 2025

Dr. Mohammad Tanweer - Internal Medicine, PGY2. *Choosing Wisely: Don't Keep a Patient in a Brick and Mortar Hospital Bed When They can be Treated on a Hospital at Home*. World Hospital at Home Congress. March 2025

Successful applicants for conferences September – December 2024

Dr. Hannah Byles - Pediatrics, PGY2. *Effectiveness of the HEADS-ED Screening Tool in Predicting Need for Admission in Children Seeking Emergency Department Care with Acute Mental Health Concerns*. American Academy of Pediatrics Conference. October 2024

Dr. Nada El Tobgy - Internal Medicine, PGY3. *Evidence of Inequitable Access to Catheter Ablation for Atrial Fibrillation Within the Canadian Universal Health Care System*. Canadian Cardiology Congress. October 2024

Dr. Heather Halperin - Internal Medicine, PGY2. *Asian Ancestry is Associated with Long-Term Survival in EGFR Positive Non-Small Cell Lung Cancer (NSCLC) Treated with First-Line Tyrosine Kinase Inhibitors (TKI): A Multicentre Canadian Cohort*. Canadian Association of Medical Oncologists Annual Scientific Meeting. October 2024

Dr. Julian Rizos - Orthopedic Surgery, PGY5. *Minimal Radiographic Displacement of Posterior Malleolus Fractures Occurs with Tibial Intramedullary Nail Placement*. Orthopedic Trauma Association Annual Meeting. October 2024

Dr. Charlotte Rosen - Infectious Diseases, PGY5. *Prevalence and Risk Factors for Toxoplasma Gondii Seropositivity in a Geographically Defined Cohort of Persons with HIV in Southern Alberta, Canada*. Infectious Diseases (ID) Week. October 2024

Dr. Nicklan Sahlollbey - Otolaryngology, PGY1. *Cervical Trauma in Lacrosse: An Analysis of Neck Injuries from 2003 to 2022*. American Academy of Otolaryngology Annual Meeting. October 2024

Dr. Erin Stephenson - Neuropathology, PGY3. *Uncovering Novel Extracellular Matrix Transcriptome Alterations in Lesions of Multiple Sclerosis*. Canadian Association of Neuropathologists Annual Meeting. October 2024

Dr. Antoine Sylvestre-Bouchard - Ophthalmology, PGY4. *Virtual Versus Table-Mounted Perimetry: What Does the Patient Prefer?*. American Academy of Otolaryngology Annual Meeting. October 2024

Dr. Benson Weyant - Infectious Diseases, PGY5. *Wastewater-Based Surveillance of Hepatitis A Virus Across Communities in Alberta, Canada*. ID Week. October 2024

Dr. Xiaoyu (Hannah) Yang - Internal Medicine, PGY2. *Risk of Diabetic Ketoacidosis Among New Users of SGLT2i: A Federated Observational Database Analysis*. Observational Health Data Sciences and Informatics (OHDSI) Global Symposium. October 2024

Dr. Samin Dolatabadi - Internal Medicine, PGY3. *Impact of Virtual Care on Maternal and Neonatal Outcomes in Gestational Diabetes*. Diabetes Canada Conference. November 2024

Dr. Victoria Peterson - Diagnostic Radiology, PGY4. *Meniscal Ramp Lesions: Over-Reported on MRI? Or Under-Reported at Arthroscopy?*. International Skeletal Society (ISS) Musculoskeletal Diagnostic Meeting. November 2024

Dr. David Twa - Anatomical Pathology, PGY4. *Comparison of Clinical Sensitivity for Kinase Fusion Detection in Thyroid Carcinoma by Paired Primer Targeted Methods; Centralized Molecular Pathology Review Streamlines Reflexive Biomarker Testing; Prevalence, Treatment, and Outcomes of Real-World Fusion*. Association of Molecular Pathology Annual Meeting and Expo. November 2024

Successful Applicants for 2024 Q2 Awards

Dr. Mohammad Aleinati - Otolaryngology, PGY3. *Optimizing Timely Tracheostomy Decannulation After Head & Neck Cancer Surgery with Free Flap Reconstruction: An Educational Quality Improvement Intervention*. AAO-HNSF 2024 Annual Meeting & OTO Expo. Sept 2024.

Dr. Conrad Bayley - Radiation Oncology, PGY2. *Evaluation and Implementation of Two Auto-Contouring Systems for Head and Neck Organs at Risk in Radiotherapy Planning*. Canadian Association of Radiation Oncology (CARO) Annual Scientific Meeting. Sept 2024.

Dr. Hannah Byles - Pediatrics, PGY2. *Effectiveness of the HEADS-ED Screening Tool in*

Predicting Need for Admission in Children Seeking Emergency Department Care with Acute Mental Health Concerns. American Academy of Pediatrics Conference. Sept 2024.

Dr. Heather Halperin - Internal Medicine, PGY2. *Asian Ancestry is Associated with Long-Term Survival in EGFR Positive Non-Small Cell Lung Cancer (NSCLC) Treated with First-Line Tyrosine Kinase Inhibitors (TKI): A Multicentre Canadian Cohort.* Canadian Association of Medical Oncologists Annual Scientific Meeting. Sept 2024.

Dr. Halli Krzyzaniak - Vascular surgeon, PGY2. *Long-Term Outcomes of Neoaortoiliac System for Treatment of Aortic Graft Infection.* Canadian Society of Vascular Surgery Annual Meeting. Sept 2024.

Dr. Jeremy Moreau - Ophthalmology, PGY1. *Smartphone-Based Artificial Intelligence System for Iculofacial Measurements and Automatic Comparision Against a Newly Developed Age and Ethnicity-Matched Normative Database of Oculofacial Anthropometric Measurements.* European Society of Ophthalmic Plastic and Reconstructive Surgery Annual Meeting. Sept 2024.

Successful Applicants for 2024 Q1 Awards

Dr. Sylvie Bowden - Obstetrics & Gynecology, PGY3. *Incidence of Venous Thromboembolism in Patients with Ovarian Cancer Receiving Neoadjuvant Chemotherapy: A Systematic Review and Meta-Analysis.* The Society of Obstreticians & Gynneecologists of Canada (SOGC) Annual Clinical and Scientific Conference (ACSC). June 2024.

Dr. Ryan Chan - Otolaryngology, PGY3. *Evaluating the Role of OtoVIS: An Otologic Simulator Mobile Application for Undergraduate Medical Education and Asynchronous Learning.* Canadian Society of Otolaryngology. June 2024.

Dr. Pishoy Gouda - Internal Medicine PGY 2. Incorporating competitive endurance event training in cardiac rehabilitation: Is it safe? Canadian Cardiology Congress, October 2017

Dr. Lawrence Gutman - Internal Medicine PGY 3. Are internal medicine residents' skills in noninvasive ventilation for acute respiratory failure improved after small group practice using a respiratory patient simulator? CHEST Annual Meeting 2017, October 2017

Dr. Umair Iftikhar - Internal Medicine PGY 2. Coronary angiography in out of hospital cardiac arrest: A practical guide to decision making. Canadian Cardiovascular Congress 2017, October 2017

Dr. Jennifer Lam - Pediatric Surgery PGY 6. *Three dimensional body scans for an objective measurement of Pectus Carinatum deformities.* Canadian Association of Pediatric Surgery Conference, October 2017

Dr. John Lam - Infectious Diseases PGY 4. *Staphylococcus Aureus Bacteremia (SAB) management in a large metropolitan integrated health region: Quality of care determinants (QoCD).* Conference of the Infectious Diseases Society of America, October 2017

Dr. Raynell Lang - Internal Medicine PGY 3. *Incident Syphilis infections in an HIV population: Presentation and care.* Conference of the Infectious Diseases Society of America, October 2017

Dr. Patricia Lee - Emergency Medicine PGY 5. *The use of a pediatric pre-arrival and pre-departure trauma checklist to improve clinical care in a simulated trauma resuscitation: A randomized trial.* Simulation Summit 2017, November 2017

Dr. Kirstie Lithgow - Endocrinology PGY 5. *Adherence to growth hormone therapy in patients with growth hormone deficiency following traumatic brain injury.* British Endocrine Society, November 2017

Dr. Yang (Steven) Liu - Emergency Medicine PGY 3. *Treatment and outcome for patients with recurrent methanol poisoning: A case series.* North American Congress of Clinical Toxicology (NACCT), October 2017

Dr. Alina Makoyeva - Diagnostic Radiology PGY 4. *CEUS LI-RADS for interpreting observations in patients at risk for HCC: A validation study.* Society of Radiologists in Ultrasound, October 2017

Dr. David Nicholl - Internal Medicine PGY 3. *CPAP therapy improves central arterial stiffness and decreases arterial renin angiotensin system activity in humans with obstructive sleep apnea.* American Society of Nephrology Kidney Week, October 2017

Dr. Michael Opoku-Darko - Neurosurgery PGY 5. *Circumferential resection of glioblastoma: A novel surgical technique for maximizing extent of resection and prolonging survival.* Society of Neuro- Oncology, November 2017

Dr. Shannon Ruzycki - General Internal Medicine PGY 5. *Characterizing and reducing iatrogenic complications on an impatient internal medicine unit.* Canadian Society of Internal Medicine, November 2017

Dr. Richelle Schindler - Public Health & Preventative Medicine PGY 3. *From reactive to proactive: Disease prevention and health promotion in undergraduate medical education.* NAPCRG Annual Meeting, November 2017

Dr. Elizabeth Tai - Diagnostic Radiology PGY 5. *Targeting the aortic regurgitant jet with 2D phase contrast MRI in patients with bicuspid aortic valves: Influence on estimates of regurgitant fraction versus echocardiography.* North American Society for Cardiovascular Imaging, October 2017

Dr. Kathryn Watson - General Internal Medicine PGY 4. *Point of care ultrasound training for internal medicine residents: A Canadian multi-centre learner needs assessment study.* World Ultrasound in Medical Education (WUCME), October 2017

Successful applicants for conferences from July – September 2017

Dr. Yuh-Shin Chang - Diagnostic Radiology PGY 3. *Risk stratification for oropharyngeal carcinoma using texture analysis - a step beyond HPV status.* American Society of Head and Neck Radiology, September 2017

Dr. Carolyn Graham - General Surgery PGY 2. *Sleeve gastrectomy and hypertension: A systematic review of long-term outcomes.* Canadian Surgery Forum, September 2017

Dr. Michael Horkoff - General Surgery PGY 3. Using a shorter circular stapler height when constructing the gastrojejunostomy during a laparoscopic Roux en Y gastric bypass results in a reduced rate of strictures and staple line bleeding. Canadian Surgery Forum, September 2017

Dr. Albert Isaacs –Neurosurgery PGY 4. Global epidemiology of hydrocephalus: Systematic review of prevalence and birth surveillance report of incidence. International Society for Hydrocephalus and CSF Disorders, September 2017

Dr. Kevin Martell - Radiation Oncology PGY 5. Phosphatidyl inositol-3 kinase (PIK3CA) mutational status and post chemoradiotherapy 18F-FDG-PET imaging response in patients with cervical cancer. American Society for Radiation Oncology, September 2017

Dr. Chukwuemeka Nzekwu - Diagnostic Radiology PGY 3. Endovascular treatment of splenic artery aneurysms: A multicenter retrospective review. Cardiovascular and Interventional Radiological Society of Europe, September 2017

Dr. Danya Traboulsi – Dermatology PGY 4. The efficacy of self-regulated vs algorithm-regulated learning for dermatology morphology through an on-line teaching module. European Academy of Dermatology and Venereology Congress, September 2017

Dr. Nathan Zondervan - General Surgery/CIP PGY 3. Local access to surgical care: A survey of general surgeons in western Canada. Canadian Surgery Forum, September 2017

Successful applicants for conferences from April – June 2017

Dr. Michael Avery - Neurosurgery/CIP PGY 5. Monocular blindness is a significant risk factor for stroke. European Stroke Conference, May 2017

Dr. Leila Barss - Respiriology PGY 5. Bronchoalveolar lavage fluid cellular analyses differ by laboratory technique. American Thoracic Society, May 2017

Dr. David Campbell – Endocrinology PGY 4. The association between financial barriers and adverse clinical outcomes among patients with cardiovascular-related chronic diseases. European Atherosclerosis Society, April 2017

Dr. Thomas Cawthorn - Plastic Surgery PGY 1. Infantile hemangiomas of the lip: Which lesions are associated with complications and surgical intervention? Canadian Society of Plastic Surgeons, June 2017

Dr. Angela Deane - Obstetrics & Gynecology PGY 2. Neuroendocrine carcinoma of the cervix: A review of clinical presentation, treatment, prognostic factors and survival outcome from two institutions over 35 years. Society of Gynecologic Oncology of

Canada, June 2017

Dr. Krystyna Ediger – Pediatrics PGY 2. Maternal smoking and neurodevelopmental outcomes in preterm infants of <29 weeks gestation: A multicenter study. Pediatric Academic Society, May 2017

Dr. Lisa Hoyte - Neurology PGY 4. Reliability of automated software to assign e-ASPECTS to CT scans for acute ischemic changes. American Academy of Neurology, April 2017

Dr. Rebecca Iwanicki - Physical Medicine & Rehabilitation PGY 3. Depression and mild cognitive impairment in post- traumatic headache: Is there a correlation? The International Society of Physical Rehabilitation, May 2017

Dr. Julie Kromm - Critical Care Medicine PGY 7. Development of an EEG curriculum for ICU nurses to facilitate areal time screening of continuous EEG data for seizures in critically ill adults. Canadian Neurologic Science Federation Congress, June 2017

Dr. Simon Lam - Pediatric Gastroenterology PGY 6. Transient elastography in the evaluation of cystic fibrosis associated liver disease: Systematic review and meta-analysis. Digestive Diseases Week, May 2017

Dr. Stefan Lang - Neurosurgery/CIPPGY 4. Resting state functional connectivity is sensitive to cognition in patients with glioma and can predict neuropsychological outcome. American Academy of Neurological Surgeons, April 2017

Dr. Alison Laws - General Surgery PGY 3. Does intra-operative margin assessment improve margin status and re-excision rates? A population-based analysis of outcomes in breast-conserving surgery for ductal carcinoma in situ (DCIS). American Society of Breast Surgeons, April 2017

Dr. Francisco Lee - Otolaryngology PGY 2. An evaluation of in-office flexible fiberoptic biopsies for laryngopharyngeal lesions. Canadian Society of Otolaryngology, June 2017

Dr. Justin Lui - Otolaryngology PGY 3. Assessing the supplementary training models in Canadian otolaryngology-Head and Neck Surgery residency programs. Canadian Society of Otolaryngology, June 2017

Dr. Julie Luming - Otolaryngology PGY 3. Tracheostomy quality of life: Standard tracheostomy tubes versus Montgomery tubes. Canadian Society of Otolaryngology, June 2017

Dr. Joanna Moser - Anesthesia PGY 3. Can pediatric gastric sonography be used as a clinical tool to establish empty antral cross-sectional areas? Canadian

Anesthesiologists Society, June 2017

Dr. Monique Munro - Ophthalmology PGY 3. Epithelial thickness changes following corneal collagen crosslinking in patients with keratoconus. American Society of Cataract and Refractive Surgeons, May 2017

Dr. Michael Ney - Gastroenterology PGY 4. Abnormal MOCA scores are common and predict morbidity and mortality in patients with cirrhosis. European Association for the Study of Liver, April 2017

Dr. Ryan Rochon - Colorectal Surgery PGY 6. Adjuvant chemotherapy after radical resection for rectal cancer: Are goals of treatment being achieved? American Society of Colon and Rectal Surgeons, June 2017

Dr. Grazia Salvo - Public Health & Preventive Medicine PGY 3. Barriers and supports to physical activity in adults following residential relocation: A mixed methods study. Canadian Public Health Association, June 2017

Dr. Kristine Smith – Otolaryngology PGY 5. An evaluation of on-call otolaryngology consultations in a tertiary care centre: Assessing and managing an increasing work load. Canadian Society of Otolaryngology, June 2017

Dr. Stephen Smith - Colorectal Surgery PGY 7. Ileostomy formation is associated with community- acquired acute kidney injury and new onset chronic kidney disease. American Society of Colon and Rectal Surgeons, June 2017

Dr. Jill Stone - Plastic Surgery PGY 5. A further look into Alberta breast reconstruction wait times: Influences of cancer staging and radiation therapy on delayed rest reconstruction. Canadian Society of Plastic Surgeons, June 2017

Dr. Eva Thiboutot - General Surgical Oncology PGY 7. Effect of radiation therapy on the satisfaction of patients with immediate, implant-based breast reconstruction. American Society of Breast Surgeons, April 2017

Dr. Heather Thompson - Obstetrics & Gynecology PGY 5. Getting wound up: Temporal summation in chronic pelvic pain. Society of Obstetrics & Gynecologists of Canada, June 2017

Dr. Michael Tso - Neurosurgery PGY 5. Long-term imaging surveillance in patients with ruptured intracranial aneurysms treated with endovascular coiling. American Association of Neurological Surgeons, April 2017

Dr. Alejandra Ugarte Torres - Infectious Diseases PGY 4. Eggerthella lenta blood stream infections are associated with increased mortality following empiric piperacillin-tazobactam monotherapy: A population-based retrospective cohort study in the Calgary area. Association of Medical Microbiology and Infectious

Disease, May 2017

Dr. Zachery Veitch - Medical Oncology PGY 5. Disparities in adjuvant hormone adherence (AHA) in breast cancer (BC) patients within a universal healthcare model. American Society of Clinical Oncology, June 2017

Dr. John Webb - Public Health & Preventive Medicine PGY 4. *Difficulties in insurability caused by screening tests*. Innovative Approaches to Optimal Cancer Care in Canada, April 2017

Dr. Stacy Yeh - Pediatrics PGY 3. *Ebola virus disease: What do Calgary physicians know and are they willing to provide care?* Canadian Pediatric Society, June 2017

Dr. Steven Yip - Medical Oncology PGY 5. *Outcomes in advanced urothelial cancer and the role of neutrophil-to-lymphocyte ratio (NLR) in the second-line treatment setting; Second accepted submission: Managing the future utilization of medical oncology services: A workforce planning model*. Canadian Association of Medical Oncologists, April 2017

Dr. Nathan Zondervan - General Surgery/CIP PGY 3. *Avoid lectures on Mondays: The impact of context on teacher ratings*. Canadian Conference on Medical Education, May 2017

Successful applicants for conferences from January – March 2017

Dr. Toni Burbidge - Dermatology PGY 2. *Patients with a history of indoor tanning are diagnosed with melanoma at a younger age: a cohort study in a Canadian tertiary cancer centre*. American Academy of Dermatology, March 2017

Dr. Yin Chan – Gastroenterology PGY 4. *Direct-acting antivirals are not associated with early tumor recurrence after curative treatments in hepatitis C-related hepatocellular carcinoma*. Canadian Digestive Disease Week, March 2017

Dr. May Choi - Internal Medicine PGY 3. *Ana-negative SLE: Re-evaluation in an international inception cohort*. International Congress on SLE, March 2017

Dr. Rebecca Hartley - Plastic Surgery PGY 3. *Pediatric hand fractures: Predicting which fractures require specialized care by a hand surgeon*. American Association for Hand Surgery, January 2017

Dr. Matthew Mazurek - Gastroenterology PGY 4. *Clinical outcomes of patients undergoing balloon- assisted endoscopy for obscure gastrointestinal bleeding*. Canadian Digestive Disease Week, March 2017

Dr. Michael Ney - Gastroenterology PGY 4. *Cognitive dysfunction is present in half*

of stable outpatients with cirrhosis and is strongly associated with the potentially modifiable factors, depression and low muscle strength. Canadian Digestive Disease Week, March 2017

Dr. Henry Nguyen - Gastroenterology PGY 5. *Impact of hepatitis C eradication using direct acting antivirals on primary biliary cholangitis-associated autoimmunity. Canadian Digestive Disease Week, March 2017*

Dr. Chukwuemeka Nzekwu - Diagnostic Radiology PGY 2. Evaluation of the technical and clinical outcomes following the endovascular management of VAAs and VAPAs. 2nd submission: Evaluating the use of CEUS in the characterization of complex type II endoleaks in patients who underwent failed endoleak repairs. Society of Interventional Radiology, March 2017

Dr. Yiming Qian - General Surgery PGY 3. Predicting the trajectory of post-hepatectomy liver dysfunction (PHLD). Americas Hepato-Pancreato-Biliary Association, March 2017

Dr. Aylin Sar - Anatomical Pathology PGY 4. Predictors of metastatic disease in testicular seminoma: Clinicopathologic study of 406 cases. 2nd submission: Lymph vascular invasion in seminoma revisited - a potential overstating pitfall. United States and Canadian Academy of Pathology, March 2017

Dr. Kimberly Williams - Psychiatry PGY 3. Deep brain stimulation for treatment resistant depression: Challenges in recruitment. Second International Brain Stimulation Conference, March 2017

Dr. Steven Yip - Medical Oncology PGY 5. Real world experience of immuno-oncology agents in metastatic renal cell carcinoma: Results from the IMDC. Genitourinary Cancers Symposium, February 2017

Successful applicants for conferences from October – December 2016

Dr. Justin Chia - Dermatology, PGY 5. Mohs micrographic surgery dermatopathology concordance in Canada: a single institution experience. American Society for Dermatologic Surgery, November 2016

Dr. Brett Edwards - Internal Medicine, PGY 2. Epidemiology and outcomes of achromobacter species infections in adults with cystic fibrosis: a cohort study. Infectious Diseases Society of America, October 2016

Dr. Pishoy Gouda - Internal Medicine, PGY 1. The impact of social media on cardiovascular medicine: Insights into twitter's sphere of influence. Canadian Cardiovascular Congress, October 2016

Dr. Carmen Guenther - Psychiatry, PGY 4. A multidisciplinary approach to

adult ADHD treatment: population characteristics and treatment outcomes in an outpatient population. Canadian ADHD Resource Alliance, October 2016

Dr. Tyrone Harrison - Nephrology, PGY 4. Assessing the association between change in albuminuria and clinical outcomes: A systematic review and meta-analysis. American Society of Nephrology, November 2016

Dr. Evan Jost – General Surgery, PGY 4. Accuracy of clinical, laboratory test, and computed tomography findings for identifying hollow viscus injury in blunt trauma patients with intraperitoneal free fluid without solid organ injury. North Pacific Surgical Association, November 2016

Dr. Omar Khan - Medical Oncology, PGY 4. Accuracy of venous blood gas sodium and potassium results compared to standard serum laboratory measurements. Canadian Society of Internal Medicine, October 2016

Dr. John Lam - Internal Medicine, PGY 3. Elucidating the dynamic nature of bacterial infections in cystic fibrosis (CF) lower airways: A cohort Study. Infectious Diseases Society of America, October 2016

Dr. Chris Lata - Infectious Diseases, PGY 4. *Epidemiology and clinical outcomes of serratia marcescens infections in adults with cystic fibrosis*. Infectious Diseases Society of America, October 2016

Dr. Christopher Ma - Gastroenterology, PGY 5. *Ustekinumab is effective for the induction and maintenance of response in Crohn's Disease: A multi-center cohort study*. American College of Gastroenterology, October 2016

Dr. Holly Mewhort - Cardiac Surgery, PGY 4. *Extracellular matrix biomaterial promotes cardiac repair through an active bio- inductive fibroblast growth factor-2 dependent mechanism*. American Heart Association, November 2016

Dr. Monique Munro - Ophthalmology, PGY 3. *Outcomes of intravitreal injections preformed with lid splinting eyelid retraction technique: a minimized sterile approach*. American Academy of Ophthalmology, October 2016

Dr. Michael Opoku-Darko - Neurosurgery, PGY 4. *Surgical management of incidental diffusely infiltrating gliomas: A single institutional experience*. Society for Neuro-Oncology, November 2016

Dr. Adam Papini - Internal Medicine, PGY 3. *The effect of neighbourhood level crime rates on ACS incidence*. Canadian Society of Internal Medicine, October 2016

Dr. Payam Pournazari - Internal Medicine, PGY 2. *Diagnostic value of neurological studies in diagnosing syncope: A systematic review*. Canadian

Cardiovascular Congress, October 2016

Dr. Saman Rezazadeh - Cardiology, PGY 6. *Reversible dilated cardiomyopathy due to high-burden of ventricular arrhythmias in Andersen-Tawil syndrome.* Canadian Cardiovascular Congress, October 2016

Dr. Shannon Ruzycki - General Internal Medicine, PGY 4. *Assessing the quality of inpatient prandial insulin management on a medical teaching unit.* Canadian Society of Internal Medicine, October 2016

Dr. Caley Shukalek - Internal Medicine, PGY 2. *Evaluating the role of PCR testing for the diagnosis of primary syphilis: A population-cohort study.* Infectious Diseases Society of America, October 2016

Dr. Holly Smith - Cardiac Surgery, PGY 3. *Classification and outcomes of extended arch repair for acute type A aortic dissection: A systematic review and meta-analysis.* Canadian Cardiovascular Congress, October 2016

Dr. Joan Stilling - Physical Medicine and Rehabilitation, PGY 2. *Baseline pre-season cognition testing in the athletic population: Comparison of computerized neurocognitive testing (ImPACT) and the MoCA tools.* Annual Congress of Rehabilitation Medicine, November 2016

Dr. Amy Trottier - Hematology, PGY 4. *Differential gene expression using RNA sequencing between elderly acute myeloid leukemia (AML) patients with long versus short-term survival.* American Society of Hematology, December 2016

Dr. Alejandra Ugarte Torres - Infectious Diseases, PGY 4. *Unexpected high prevalence of qacA/B and smr genes among staphylococcus spp isolates from individuals attending a sexually transmitted infections clinic.* Infectious Diseases Society of America, October 2016

Dr. Katherine Watson - Internal Medicine, PGY 3. *An environmental scan of community-based resources available for long-term cardiovascular risk reduction in Calgary, Alberta.* Canadian Society of Internal Medicine, October 2016

Successful applicants for conferences from July - September 2016

Dr. Jessica Conway – Radiation Oncology, PGY 5. *Does deep inspiration breath hold (DIBH) produce a clinically meaningful reduction in ipsilateral lung dose during loco-regional radiation therapy (RT) for women with right-sided breast cancer?* Canadian Association of Radiation Oncology, September 2016

Dr. Navjit Dharampal – General Surgery, PGY 4. *Prophylactic anticoagulation in the postoperative phase for elective laparoscopic splenectomy patients: a cost-effectiveness analysis.* Canadian Association of General Surgeons, September 2016

Dr. Hadal El-Hadi – Plastic Surgery, PGY 2. *Gender affirming surgery for transgender individuals: Perceived satisfaction and barriers to care.* Plastic Surgery - The Meeting, September 2016

Dr. Darby Ewashina – Psychiatry, PGY 2. *How does my doctor seem today? A qualitative study of patients' perceptions regarding physician wellness and its link to patient care.* International Conference on Physician Health, September 2016

Dr. Mark Gillrie – Infectious Disease, PGY 5. *Modifying thrombin: A novel anti-adhesive approach for severe Plasmodium falciparum malaria.* Gordon Research Conference: Endothelial Cells in Health & Disease, July 2016

Dr. Wei Ning (Will) Jiang – Radiation Oncology, PGY 2. *Adjuvant radiotherapy for prostate cancer: Did GUROC recommendations influence practice trends?* Canadian Association of Radiation Oncology, September 2016

Dr. Vera Krejcik – Psychiatry, PGY 3. *A simplified intervention to modify physical activity, lifestyle, and eating behaviour in obese patients with stable psychotic disorders.* Canadian Psychiatric Association, September 2016

Dr. Mark Lipson – General Surgery, PGY 5. *Double gloving practice and attitudes amongst staff surgeons and surgical residents.* Canadian Association of General Surgeons, September 2016

Dr. Kevin Martell – Radiation Oncology, PGY 4. *Modeling biochemical relapse free survival in intraoperative planned low dose rate prostate brachytherapy: A multicentre cohort analysis.* American Society for Radiation Oncology, September 2016

Dr. Peter Mathen – Radiation Oncology, PGY 5. *Mutational spectrum of anal cancers from patients treated with radical chemoradiotherapy.* American Society for Radiation Oncology, September 2016

Dr. Todd Penney – Diagnostic Radiology, PGY 5. *Accuracy of sonographic estimated fetal weight in postdates pregnancies: do weight estimates influence management?* World Congress on Ultrasound in Obstetrics & Gynecology, September, 2016

Dr. Edward Schwartzenberger – Orthopedic Surgery, PGY 5. *What are the sleep patterns of residents?* International Conference on Residency Education, September 2016

Dr. Kevin Solverson – Respiriology, PGY 4. *Diagnostic utility of the physical examination for pulmonary hypertension.* European Respiratory Society Congress, September 2016

Dr. Jordan Stosky – Radiation Oncology, PGY 3. Increasing use of active surveillance amongst radiation oncologists in Canada. Canadian Association of Radiation Oncology, September 2016

Dr. Amy Thommasen – General Pathology, PGY 4. Diagnostic accuracy of the osmol gap, anion gap and serum pH for methanol, ethylene glycol, and isopropanol exposures in Calgary: a review of current practice and evaluation of laboratory predictors. Canadian Association of Pathologists, July 2016

Dr. Ryan Tong – General Surgery, PGY 3. The role of groin ultrasound imaging in the management of inguinal hernias. Canadian Association of General Surgeons, September 2016

Dr. Aman Wadhvani – Diagnostic Radiology PGY 3. Efficacy of CT in diagnosing non-variceal gastrointestinal bleeding prior to trans arterial embolization after endoscopic failure in managing acute gastrointestinal bleeding. Congress of Cardiovascular and Interventional Radiological Society of Europe, September 2016

Successful applicants for conferences from April – June 2016

Dr. Ahmed Abdi Ali – Cardiology, PGY 6. Prognostic utility of Cardiac index measured by CMR in patients with coronary artery disease. American College of Cardiology, April 2, 2016. Prognostic utility of left ventricular mass index measured by CMR in patients with suspected coronary artery disease. American College of Cardiology, April 2, 2016.

Dr. David Ben-Israel – Neurosurgery, PGY 2. Validation and standardization of cerebral vasospasm grading on CT angiography. Canadian Neurosurgical Society, June 21, 2016

Dr. Magalie Cadieux - Neurosurgery, PGY 1. Rates of infection following craniotomy or craniectomy with subsequent cranioplasty in traumatic brain injury. Canadian Neurosurgical Society. June 25, 2016

Dr. Helen Chung – Ophthalmology, PGY 4. Updated Results: Current opinions on corrective refractive surgery. Canadian Ophthalmological Society. June 18, 2016

Dr. David Cinats – Orthopedic Surgery, PGY 4. The latitude total elbow arthroplasty: Minimum two year outcomes. Canadian Orthopedic Association. June 18, 2016

Dr. Oluwatomilayo Daodu – General Surgery, PGY 4. Draining setons as definitive management of fistula in ano. American Society of Colon and Rectal Surgeons. April 30, 2016

Dr. Doreen Ezeife – Medical Oncology, PGY 5. Comparison of clinically

meaningful improvements in outcomes between cancer patients and medical oncologists. Canadian Medical Oncologists. April 27, 2016. Application of the ASCO framework for assessing value in metastatic colorectal cancer clinical trials. Canadian Medical Oncologist. April 27, 2016

Dr. Akinrinola Famuyide – Radiology, PGY 3. Delayed phase blood pool assessment of multiphase-CTA in acute stroke provides further information beyond non-contrast CT. European Stroke Organization. May 11, 2016

Dr. Nicole Fischer – Pediatrics, PGY 3. Neurodevelopmental outcomes following extensive cardiopulmonary resuscitation in the delivery room for infants born <29 weeks gestational age. Pediatric Academic Societies. May 1, 2016

Dr. Christopher Gerdung – Pediatric Respiriology, PGY 6. Association between chronic aspiration and chronic airway infection with pseudomonas aeruginosa and other gram-negative bacteria in children with cerebral palsy. American Thoracic Society. May 15, 2016

Dr. Zachary Guenther – Diagnostic Radiology, PGY 4. Aortic wall strain analysis in severe aortic valvular stenosis: relationships between ascending aortic 4d strain and echocardiographic functional and geometrical markers. Society of Cardiovascular Computed Tomography. June 24, 2016

Dr. Albert Isaacs – Neurosurgery, PGY 3. Lumbar fusion for degenerative disease: A systematic review and meta-analysis. Canadian Neurosurgical Society. June 22, 2016

Dr. Ryan Iverach – Family Medicine - Rural. PGY 2. Use of pharmacological sleep aids among emergency medicine staff physicians in a Canadian tertiary-care setting: A web based survey. Canadian Association of Emergency Physicians. June 6, 2016

Dr. Sheila Klassen – Cardiology, PGY 6. The impact of a dedicated heart failure clinic in Guyana on cardiovascular outcome. World Cardiology Congress. June 5, 2016

Dr. Jeremy Kubik – Orthopedic Surgery, PGY 3. Evaluating the utility of the lateral elbow radiograph in articular olecranon reduction: An anatomic and radiographic study. Canadian Orthopedic Residents Association. June 18, 2016

Dr. Sarah Lai – Pediatric Surgery, PGY 6. Comparison of two-incision and four-port laparoscopic cholecystectomy in children. International Pediatric Endosurgery Group. May 25, 2016

Dr. Stefan Lang – Neurosurgery, PGY 4. Predictors of length stay following lumbar decompressive surgery. Canadian Neurosurgical Society. June 22, 2016

Dr. Alison Laws – General Surgery, PGY 3. Intra-operative margin assessment in breast-conserving surgery: A population- level comparison of techniques. American Society of Breast Surgeons. April 15, 2016

Dr. Patricia Lee – Emergency Medicine, PGY 4. Handover education in Canadian adult and pediatric emergency medicine residencies: A national survey and needs assessment. Canadian Association of Emergency Physicians. June 6, 2016

Dr. Rachel Lim – Internal Medicine, PGY 3. Epidemiology and natural history of pseudomonas aeruginosa infection in patients with non-cystic fibrosis related bronchiectasis. May 15, 2016

Dr. Andy Lo – Anesthesiology, PGY 4. Comparing ketorolac dose of 15 mg versus 30 mg on postoperative pain. Canadian Anesthesiologist Society. June 25, 2016

Dr. Emma Logan – Family Medicine- Emergency Medicine, PGY 3. Synovial fluid analysis in the diagnosis of septic arthritis: comparing local doata to the literature. Canadian Association of Emergency Physicians. June 6, 2016

Dr. Justin Lui – Otolaryngology, PGY 3. Does virtual reality temporal bone simulation improve mastoidectomy performance: A meta-analysis. Canadian Society of Otolaryngology. June 12, 2016

Dr. Erin Miller – Internal Medicine, PGY 3. Unique perspectives on the medical teaching unit physician preceptor role: A qualitative study of stakeholder groups views. Canadian Conference on Medical Education. April 18, 2016

Dr, Afra Moazeni Rizi – Anesthesiology, PGY 5. *Intrathecal morphine vs local infiltration analgesia for total knee and hip arthoroplasties*. Canadian Anesthesiologist Society. June 26, 2016

Dr. David Motiuk – Diagnostic Radiology, PGY 4. *The role of hepatic arterial phase CT in breast cancer*. American Roentgen Ray Society. April 20, 2016

Dr. Kara Murias, Pediatric Neurology/CIP, PGY 5. *Development of spatial orientation skills in children: a task fMRI study*. Organization for Human Brain Mapping. June 28, 2016

Dr. Richard Ng – Orthopedic Surgery, PGY 5. *Results of octaplex for reversal of warfarin anticoagulation in hip fracture patients*. Canadian Orthopedic Association. June 18, 2016

Dr. David Nicholl – Internal Medicine, PGY 2. *CPAP treatment for obstructive sleep apnea improves the heart rate variability response to angiotensin II*. Canadian Society of Nephrology. May 13, 2016

Dr. Nancy Nixon – Medical Oncology, Fellow. *Oncology education for Internal Medicine residents: The value of participating in a medical oncology rotation.* Canadian Association of Medical Oncologists. April 28, 2016
