Learner Resources and Supports:

Myth Busters

**Myth #2:** There are supports through PGME available for residents but no supports for faculty who work with learners in difficulty.

**Fact:** We offer supports to faculty who work with residents in difficulty.

- The Director of Learner Resources, Aleksandra Mineyko is available to meet with Program Directors or Faculty who are working with residents in difficulty to answer questions and problem solve
The PGME Website section for Faculty with resources for working with residents in difficulty

Contact Aleksandra Mineyko, Director of Learner Resources (amineyko@ucalgary.ca) and Nancy Dunlop, Education and Learning Resource Specialist (ndunlop@ucalgary.ca) or set up a meeting through Crystal Boisselle (crystal.boiselle@ucalgary.ca).

The PGME website includes information and resources for Program Directors and Faculty on residents in academic difficulty.

Please remember to contribute by sending suggestions and resources to pdassist@ucalgary.ca

LASAC: Learner Academic Supports and Assessment Committee

LASAC meets monthly to review and provide suggestions on Remediation and Probation Plans. If you are developing a Remediation or Probation Plan, please be aware of the meeting dates. All plans are reviewed prior to implementation. Meeting dates are available here.

Transition to Practice Summer Series- CMA-Joule-2022:

Our Transition to Practice Summer Series is back with over 90% satisfaction rating and over 90% likely to recommend from residents last year.

Join our Canadian Medical Association-Joule summer sessions where panels of practicing physicians prepare residents and recent grads for the non-clinical aspects of the transition from residency to the realities of practice. Sessions cover a wide range of issues –from taxes to contracts to time management-- and provide extra time for discussions: a great way for physicians in all specialties to ask questions and prepare for practice.

All of our sessions are physician-led and industry-free. Last year, residents gave these sessions a satisfaction rate of over 90% and over 90% were likely to recommend to a peer. There is no charge. Dates and registration links below or register via our webpage.

**Call-out for the Resident Feedback Conversation Workshops:**

PGME is pleased to announce that we will be holding 5 workshops on **Feedback Conversations - The Essential Skill** in September and October of 2022.

Programs that have launched CBD, or are targeted to launch in July of 2022, are aware of the vital role feedback plays in clinical teaching and learning.

Frequent workplace-based assessments along with coaching are central to competency-based medical education (CBME).

These interactive workshops will cover key elements of feedback, give guidance about making the most of coachable moments throughout the workday, as well as provide residents with opportunities to practice offering and receiving feedback. The objectives for this workshop are listed below:

1. Describe feedback including Definitions, Why it Matters, and Best Practices.
2. Identify barriers to offering and learning from Feedback, as well as strategies to address barriers.
3. Use a “Best Practice” Framework for offering and receiving feedback.

We have scheduled the following workshops well in advance to make it easier for your residents to attend.

Upon request, we may be able to offer a workshop on another day for your program.

The workshops are 2 hours via Zoom which allows the option of scheduling a second Zoom topic in an academic half-day. This is an interactive workshop, so participants are encouraged to leave their video cameras on to enhance opportunities for participation.

The workshops will be held via zoom on the following dates and times (maximum number of participants per workshop is 15):
Thursday, September 15th, 2022
  •  1:00 – 3:00 PM
Wednesday, September 21st, 2022
  •  1:00 – 3:00 PM
Thursday, October 6th, 2022
  •  1:00 – 3:00 PM
Friday, October 14th, 2022
  •  10:00 AM - 12:00 PM
Thursday, October 20th, 2022
  •  1:00-3:00 PM

The target audience for this workshop is new trainees who are interested in developing their skills related to offering and receiving feedback.

The PGME CBE team recommends that residents who have started a CBD program attend. Please email pgmecbd@ucalgary.ca to book a date that works for your program and let us know how many residents to expect.

We look forward to hearing back from you!

The Learning, Engagement, Action for Resident Needs (LEARN) Study:

We wish to explore the needs and perceptions of residency program directors, teaching faculty and residents regarding resident remediation and struggling learners. This is for quality assurance purposes and because there is a lack of research regarding policy development and residency remediation. We are recruiting for one-on-one interviews with key stakeholders including current resident trainees, program directors and teaching faculty.

This is a one-time interview conducted by phone that will take up to 60 minutes of your time. Your participation in this study is completely voluntary. As a token of appreciation for your time, you will receive a $25.00 gift card. For more information, please contact the PGME Research Lead, Dr. Aliya Kassam at kassama@ucalgary.ca. This study has been approved by the University of Calgary Conjoint Health Research Ethics Board (REB21-0287).
**Equity, Diversity and Inclusion Needs Assessment Survey:**

We are undertaking a needs assessment of Equity, Diversity and Inclusion curriculum at CSM. Faculty involved in curriculum development or instruction in any of our academic programs (including faculty development) are invited to complete a survey to help us identify current initiatives at the program level, gaps in programming, and the barriers and facilitators to implementing EDI curriculum. Fill out the survey for your program or course [here](#).
