# Rural Review

## Call for Research Poster **PRESENTATIONS**

### Abstracts wanted for Cabin Fever 2020

New! At Cabin Fever in February 2020 we hope to highlight rural research and scholarship. If you have research in progress or have made education innovations in your clinical setting, we invite you to submit an abstract (max 250 words) describing your project and planned poster. Deadline for submissions is November 15, 2019.

## Want to **PRECEPT** for Med 330?

Interested in  
**PRECEPTING?**

Med 330 is a small time commitment that has a great impact on future physicians. We have found that early exposure to rural experiences in Undergrad piques interest in rural medical practice for many students and they benefit greatly through the one-on-one experience.

Med 330 students are required to attend 3 of 4 days for a minimum of 6 hours a day. Preceptors for the Clinical Experience classes

must have a **current Faculty Appointment** at the University of Calgary or be in the process of obtaining one. If you do not already have one, and would like to precept, please let us know and we can assist you through the process.

Interested in precepting? Please let us know **no later than Sept 2, 2019**. Questions? Let us know!

## Nominate NOW! Rural Recognition Awards

Do you know an outstanding rural health care practitioner? Recognize them by submitting a nomination for a Rural Recognition Award. DLRI

recognizes the work and passion that preceptors, residents, and health care professionals bring to rural communities.

Nominations are accepted until November 15, 2019. Questions? Contact us at [dlri@ucalgary.ca](mailto:dlri@ucalgary.ca).

## Clerkship Chat with **WILLIAM KENNEDY** in Lethbridge

**Finding inspiration in rural medicine and the preceptor that influenced him**

"Over the past month, my mother had felt increasingly sick, and no one could figure out why. She had seen several specialists but continued to feel fatigued and breathless. On the day my father took her to the emergency room one of the doctors figured out she had endocarditis on her VSD and started the care that would save her life. That's one of the reasons I want to practice helping people in medicine"
