

Child Health and Wellness Seminar

Predicting and Preventing Psychosis: Have We Made Progress?

Dr. Jean Addington, PhD

Professor, University of Calgary

Psychosis is a serious mental illness. With the aim of preventing psychosis, current research is examining predictors and mechanisms of the development of psychosis by identifying youth who may be at clinical high risk of developing psychosis. This presentation will offer an overview of the progress of this area of research.

Monday, September 20, 2021

8:30 – 9:30 am

Register for Zoom access: bit.ly/2Us4FRK

The University of Calgary is driving science and innovation to transform the health and well-being of children and families. Led by the Alberta Children's Hospital Research Institute, top scientists across the campus are partnering with Alberta Health Services, the Alberta Children's Hospital Foundation, and our community to create a better future for children through research.
