

CHILD HEALTH AND WELLNESS SEMINARS

Pluripotency, Embryonic Stem Cells and Developmental Clocks

Dr. Li-Fang (Jack) Chu, PhD
Assistant Professor, University of Calgary

Dr. Chu is a stem cell biologist, and an assistant professor at the Department of Comparative Biology & Experimental Medicine, Faculty of Veterinary Medicine. His research focuses on using pluripotent stem cells modeling development and disease to identify novel therapeutic strategies for regenerative medicine.

Monday, February 22, 2021

Seminar: 8:30 – 9:30 am

Register for Zoom access: bit.ly/2YMC4ou
