

Course 6 Clinical Core

Course 6 (Pediatrics and Obstetrics/Gynecology) is the second-year course for undergraduate students at the University of Calgary Cumming School of Medicine that runs from September 13, 2021 to November 16, 2021.

We are looking recruiting all types of interested teachers including faculty, fellows, and senior residents to get involved in Clinical Core.

The overall goal of the Well Child clinical core session is for students to become more comfortable examining children, and to highlight unique features in the approach to the pediatric history and physical exam. You will be assigned a group of 5-6 students, and will do bedside teaching with them, with a total of teaching time equalling 4 hour (1x4hrs, or 2x2hr sessions, with scheduling at your discretion).
