Preventing healthcare-associated infections in the NICU: Lessons learned from India

Julia Johnson, MD, PhD

Assistant Professor of Pediatrics, Division of Neonatology, Johns Hopkins University School of Medicine
Assistant Professor of International Health, Johns Hopkins Bloomberg School of Public Health

Objectives:

1. Review the epidemiology of neonatal healthcare-associated infections.
2. Discuss evidence-based strategies for infection prevention and control in the NICU.
3. Describe the role of multimodal improvement strategies in infection prevention in the NICU.
