## Human milk for preterm infants: benefits and unresolved issues

**Prof. Berthold Koletzko**, Dr. med. Dr. med. habil. (MD PhD), Dr. h.c. mult., Prof. h.c.

Else Kröner Seniorprofessor of Paediatrics

President, European Academy of Paediatrics

Dept Paediatrics, Dr. von Hauner Children's Hospital, LMU University Hospitals, Lindwurmstr. 4, 80337 München

### Objectives:

1. Appreciate the benefits of human milk feeding for preterm infant, in particular regarding the risk of necrotizing enterocolitis.
2. Consider the differences in composition and effects of mothers' own milk and donor milk.
3. Acknowledge the variation in human milk composition and its consequences for fortification.
