State of the art on IgA vasculitis, presenting evidence for skin, gut and kidney involvement

Professor Marija Jelusic, MD, MSc, PhD

Professor of Paediatrics, University of Zagreb School of Medicine

Head, Division of Paediatric Immunology, Rheumatology and Allergology,

Centre of Reference for Paediatric and Adolescent Rheumatology Republic of Croatia,

Full member of ERN RITA (European Reference Network - Rare Immunodeficiency, Autoinflammatory and Autoimmune Disease Network)

University Hospital Centre Zagreb, Zagreb, Croatia, EU

Chair, Vasculitis Working Party of the Pediatric Rheumatology European Society (PReS)

Chair, Education and Training Committee of the Pediatric Rheumatology European Society (PReS) Council

Objectives:

1. Novelties in epidemiology and pathogenesis of IgA vasculitis.
2. Present the clinical manifestations of IgA vasculitis – underline the skin, gastrointestinal and renal manifestations.
3. Outline current recommendations for diagnostics, treatment and follow up of patients with IgAV with an emphasis on future studies and unmet clinical needs.
