

Section of Neonatology, Department of Pediatrics

Neonatal Grand Rounds

Dr. Richelle Mychasiuk

Professor, Department of Neuroscience,
Monash University

The Influence of Early Experience on Adolescent Neurodevelopment

Learning Objectives:

1. Describe the relationship between programming, neuroplasticity, and early experience.
2. Demonstrate how early experiences modify risk for and recovery from chronic pain and post-concussive symptomologies.
3. Discuss the role of sleep in these processes.
4. Provide speculation on what this means for children and adolescents today.
