

Section of Neonatology, Department of Pediatrics

Neonatal Grand Rounds

**Professor Iona Novak, BApp Sc,
MSc (Hons), PhD**
Cerebral Palsy Alliance Chair of Allied Health
The University of Sydney
Faculty of Medicine and Health

Early detection of cerebral palsy and
intervention in NICU

Learning Objectives:

1. Have an understanding of the evidence base for the early detection of cerebral palsy using diagnostic and prognostic tools for infants at risk including preterm infants, infants with encephalopathy and stroke.
2. Have an understanding of the evidence base for early intervention for parents of infants with cerebral palsy and infants.
3. To provide practical advice and illustrative video case studies of how to carry out these new treatments – so as to provide clinicians with the knowledge and skills to translate these discoveries into routine care.
