

# CHILD HEALTH AND WELLNESS

## POWERKO NEURODEVELOPMENTAL CLINICAL ROUNDS

### How might robotic gait training support health and development for kids with significant disabilities?

**Dr. Elizabeth Condliffe, MD, PhD**

Alberta Children's Hospital, University of Calgary

**Christa Diot, MSc, P.Kin**

Alberta Children's Hospital

Robotic walking is generating a great deal of excitement for its potential use as a rehabilitation and assistive device for children with significant disabilities. We will present study results on outcomes such as sleep, mood and bowel function, and discuss the challenges of measuring some of the outcomes related to robotic walking meaningful to children and their families.

**Wednesday, February 2, 2022 from 12 – 1 pm MST**
