

Section of Neonatology, Department of Pediatrics

Neonatal Grand Rounds

Prof. Christoph Hartel, MD

Chair, Department of Pediatrics
Julius-Maximilians-University Würzburg

The German experience with less invasive surfactant therapy in nanopreemies (22-24 weeks GA)

Learning Objectives:

1. To understand the scientific background of less invasive surfactant administration to spontaneously breathing infants
2. To discuss the current evidence on LISA/MIST in extremely preterm infants at the limit of viability
3. To understand risk factors of "LISA+CPAP"– failure
4. To evaluate LISA/MIST as part of a "less invasive care" bundle
