RE: **Welcome Dr Jenna Lakhani, MBChB, FRCPC**

I am pleased to announce that Dr Jenna Lakhani will be joining the Section as a neonatologist on July 1, 2023. She will be based at PLC and providing clinical care there as well as ACH and FMC. She has a strong interest in the care of palliative neonatal patients and their families, which will be an asset to our group.

Please join me in welcoming Dr Lakhani to the CZ NICU family!

Alixe Howlett MD FRCPC
Section Head, Neonatology
Clinical Associate Professor, Department of Pediatrics

Hello everyone! My name is Jenna and I am a proud Calgarian! After 13 years away, I am thrilled to be moving home and joining the Neonatology Section here in Calgary. Neonatology became my interest in residency when fate had me continuously doing consults in the NICU while rotating through every other service. I couldn't ignore my passion for providing hands-on acute care as part of a multidisciplinary team, advocating for the vulnerable neonatal population, and having opportunities to build strong relationships with families over time.

I have a special interest in palliative and family-centered care and hope to continue my research and clinical pursuits in this area as I get settled in the program.

Outside of work, I love singing, baking, spending time with my partner and family, most of whom are in Calgary, and experiencing the steep learning curve of raising a puppy for the first time. I am looking forward to meeting everyone and beginning this new journey!
